

Card 1: Spot the Fishy

The Hackles Kit

Hackles · a free kit · quillsup.org · October 2026

Hackles Lab · Teacher card · K-12 · [spot-the-fishy/index.html](https://quillsup.org/spot-the-fishy/index.html)

Learning goal. Notice the clues that make a message feel fishy, sort real from fishy, and know that Pause and Ask is always a safe move.

SPECIMEN LABEL	
10 MIN	Quick Catch: 8 cards (3 Fishy, 3 Real, 2 Pause and Ask), Mini Pond of 12. Say the promise first: "A false alarm is fine. It is never your fault."
30 MIN	Full Pond: 24 cards in 3 rounds (Notice, Name a clue, Move). Pond of 30 plus Lagoon of 24. Peeper's Boost tops up the Pond, so the class cannot lose.
TEAMS	Pick "A class in teams". Teams choose in secret, you press Peek, the screen shows counts only. Timers are off by default.

Screens. Setup (deck, solo or teams, length). Card (read, then Fishy, Real or Pause and Ask). Reveal (the deck's own explanation, clue chips, the Hackles move). End (Peeper's Pause: pick one thing to remember).

Teach. Ask "What did you do to check?" and list second channels (open the app myself, call the number I already have, ask in person). Twin Flip (6-12): what is different?

Content. Real deck text. Ten cards are left out on purpose (grooming-style or threat topics), so no counselor heads-up is needed.

Standards (approximate; verify). CSTA 1B-NI-05; ISTE 2b; CASEL Responsible Decision-Making.

Accessibility. Shape, word and border mark each answer, never color alone. Keys 1, 2, 3 and N work. Feedback is announced. 200 percent zoom, reduced motion. Spanish is a draft. No accounts, no typing, nothing saved.
