A compact version of "Teaching Digital Safety and Cybersecurity in K-12" for programs that want a one-credit course, an intensive, or a summer institute. It keeps the same six Academy competencies at shorter depth and keeps every safeguard. Credit is a local decision [INSTITUTION TO ASSIGN; REGISTRAR TO CONFIRM]. Hackles has not been evaluated or approved by any agency, and nothing here claims that it is effective.

No student accounts, no student data collected, ever.
