ITEM	ANSWER
Resource name	Hackles (K-12 online-safety kit; also a static Reader, Lab and Slides)

Price	\$0. No fee now, none later, no tiers.
Procurement type	Free supplemental instructional resource (no purchase, no PO, no contract requested). Confirm your district's category for no-cost resources. [COUNSEL TO CONFIRM]
What you receive	Downloadable files (PDF and Word) and static web folders (Reader, Lab, Slides). You host or print them yourselves.
Term and renewal	None. Use any version you have downloaded for as long as you like. The publisher plans an annual refresh and posts corrections; you decide whether to update.
Licence	Lesson text and teaching materials: CC BY-NC 4.0. The Hackles name, logos, characters and artwork are reserved: print and share them unaltered for classroom and family use; other uses need written permission. [VERIFY with counsel]
Non-commercial use	Schools, libraries and youth organizations using it with no charge: within the licence as we read it. Selling the kit or charging for workshops built on it needs permission. Fee-charging programs should ask. [COUNSEL TO CONFIRM]
Student accounts	None.

ITEM	ANSWER
Student data collected or stored by the publisher	None. The publisher never receives student data.
Staff or parent data collected	None through the kit. The publisher's own website may have an optional adult newsletter or feedback form; the kit files do not. [VERIFY current site]
Cookies, analytics, third-party scripts	None in the kit files, Reader, Lab, Slides or the static website pages. One local browser setting (theme choice) is stored by the Reader.
Network access needed	None once files are on your server or devices. Not even the first run needs an outside connection if you copy the folders locally.
Integration	None. No single sign-on, no roster sync, no LTI, no API. An LMS can link to or embed the static pages.
IT effort	Low. Copy files to a web folder, LMS or shared drive; print what you need. Verify downloads with the SHA-256 list.
Accessibility	HTML Reader and Lab checked with automated and scripted methods only. PDFs are untagged. Word files and slides not visually verified. No VPAT or third-party audit exists. See the Accessibility Conformance Statement.
Evidence of effectiveness	None. No controlled evaluation. Self-reported survey tallies are available through the tracker.
Review and approval status	AI-assisted drafting and desk review. Counselor, child-safety, attorney, accuracy and inclusion gates pending. Not approved or endorsed by any state agency.
Indemnity, insurance, warranty	None offered in the kit materials. Terms of use and liability language are pending counsel. [COUNSEL TO CONFIRM]
Data-privacy agreement	Not needed, because no student data flows. Whether the publisher will sign a district agreement anyway is undecided. [COUNSEL TO CONFIRM]
Sponsorship or advertising	None. Lessons carry no sponsor branding.
Marketing to students	None. Adult-facing pages mention the publisher's other (college and professional) products; student pages never do.
Exit	Stop using it. Delete or archive your copies. Nothing to retrieve from the publisher.

Four things to know before you sign anything

1. The kit is a pilot-stage resource. Plan your own review on top of the procurement sign-off.
2. A "no student data" claim describes the kit as built. If you add a form, survey tool or account on your own systems, your own privacy rules apply to that addition.
3. State-law statements in the kit and State Atlas are research notes, not legal advice.
4. Check the licence terms with counsel if anyone will charge fees or sell anything connected to the kit.
