How to use this packet. Print on white or colored card stock (one color per card set helps you sort and store: see the color guide below). Cut along the table borders; each table cell is one card. Laminate if you can. Store each set in its own zip bag or envelope labeled with the set number. Every card is picture-first; words are 1 to 3 words only. Text in *[Illustration: ...]* brackets describes art for the illustrator and does not print. All scenarios are pretend. Cards use no brand names and show no real children. Nothing here asks a child to share real information.

If the child is describing anything harmful, follow your school's disclosure procedure.
