R2. Passphrase Word Table and Recovery Map Card (Lesson 2)

Word Table (roll a die twice per word: row, then column)

ROW \ COLUMN	1	2	3	4	5	6
1	river	maple	copper	lantern	orbit	pebble
2	harbor	thunder	velvet	compass	meadow	falcon

4	marble	sunrise	kettle	glacier	tundra	cobalt
5	puzzle	lemon	saddle	comet	hammock	ginger
6	bridge	cactus	nickel	rocket	thistle	violet

NOTE FOR STUDENTS: THIS table has 36 words, so it only shows the idea. Real tools use much bigger lists (for example 7,776 words) [VERIFIED 2026-10-05: eff.org long list]. A phrase made in class is **practice only and must never be used as a real password**.

Recovery Map Card

DRAW YOUR ACCOUNTS AS boxes. Do not write real account names or passwords. Draw arrows from each account to the thing that can reset it (email, phone number, backup code, another account).

STEP	WHAT TO DO
1	Draw 5-8 boxes for the kinds of accounts you have (email, social, game, school, shopping, cloud storage).
2	Draw an arrow from each account to what can reset it.
3	Circle the box with the most arrows pointing out of it: the master key.
4	Star it. This account needs your longest passphrase and the strongest second door.
5	Write the one thing you will do this week to protect it.

Rank the Doors (board or handout)

- (a) Password only
- (b) Password plus a code sent by text
- (c) Password plus a code from an authenticator app
- (d) A passkey or a physical security key
- (e) A password you also use on three other sites, plus a code by text

K	Keep it quiet	"Do not tell your parents." "Do not tell anyone."
S	Strange method	Gift cards, crypto, reading out a code, moving to another app, paying a stranger you cannot verify

Break the hook: Pause, then Check in a channel you chose, then Tell someone.

Case Cards (print and cut; each case is fictional and generic)

R5. Response Drill Materials (Lesson 5)

Sensitive lesson. Use only after the Counselor Heads-Up Checklist (R11) is complete. No explicit images or descriptions appear on any card.

5

Scenario Card (fictional)

Rowan, age 16, and Riley. Rowan gets a follow request from "Riley," who looks about the same age and has mutual followers. Over two days they chat. Riley is flattering and says "you are different from everyone else." Riley suggests moving to a different private app. Riley sends a photo and asks Rowan for one in return. After Rowan sends a private photo, Riley's tone changes: "Pay \$200 in gift cards in one hour or I send this to your followers and your school. Do not tell anyone or I will post it."

Underline the **pattern markers**: fast closeness, flattery, move to a private app, "you first" or "I will send one if you do", sudden change of tone, a deadline, a payment demand, a threat to share, "do not tell anyone."

Drill Card (one per student)

STEP	WHAT IT MEANS
STOP	Stop replying. Do not pay. Do not send more. Do not delete the account or the conversation.
SAVE	Save details: the username and profile link, threats and payment demands, dates and times. Do not copy, forward, or re-send any nude image of a minor, to anyone, even as "proof."
TELL	Tell a trusted person tonight. First sentence: "Something happened online and I need help. I am scared, and I do not want to be blamed."
REPORT	Report on the platform. Report to NCMEC (CyberTipline) and use Take It Down for images made when you were under 18. With an adult, contact local law enforcement or the FBI.

It is never your fault. The person making threats is the one doing wrong. If the image is an AI fake, the steps are the same.

Helpline Card (one per student; also for opted-out students) [VERIFY ALL]

- **Emergency or immediate danger:** 911
- **Suicide or crisis support:** call or text **988**; Crisis Text Line: text **HOME** to 741741
- **Online exploitation or blackmail:** NCMEC CyberTipline, report.cybertip.org, **1-800-843-5678**

- **At school:** counselor _____ room _____ school resource officer (if my school has one) _____
- **First sentence to say:** "Something happened online and I need help. I am scared, and I do not want to be blamed."

5

R5-Alt: Alternate Lesson Materials (opted-out students)

Alternate Scenario Card (fictional, non-sexual). Soren, age 15, receives a message from an account that claims to have access to Soren's private messages and a screenshot of an embarrassing chat. The account says: "Pay me or I will post this to your whole grade. Do not tell anyone."

Underline the pattern markers: a deadline, a payment demand, a threat to share, secrecy.

Alternate Drill Card:

STEP	SOREN'S RESPONSE
STOP	Do not pay or reply. Do not delete the conversation.
SAVE	Save the account name, the threat, and the payment demand. Change the password from a safe device and turn on 2-step.
TELL	A trusted adult, so Soren is not alone. First sentence: "Something happened online and I need help. I am worried I will be blamed."
REPORT	The platform. With an adult, local law enforcement or tips.fbi.gov for blackmail.

R6. Verify Lab Claim Cards V1-V9 (Lesson 6)

ALL CLAIMS ARE FICTIONAL and generic. Print one set per group.

The four moves: Pause · Source · Second source · Trace. Add **Report** (in the app, and tell an adult) when a claim is harmful or false and spreading.

CARD	CLAIM
V1	An audio clip of a voice that sounds like the principal announcing that school is closed tomorrow. It was shared in a group chat. Nothing official has been posted.
V2	A video of a famous public figure promoting a crypto giveaway: "send one, get two back." The account posting it was created this week.
V3	A dramatic photo of a flood with a local landmark visible. It is going viral. The account posts many viral images.
V4	An 8-second video of a political figure saying something shocking. It appears only in social posts.
V5	A screenshot of a "private chat" showing a classmate insulting another classmate. An anonymous account posted it. The original is not available.
V6	An AI chatbot answer that gives a specific statistic about teen sleep and cites "a study." You cannot find the study.
V7	A voicemail from a relative asking for money right now and saying not to tell your parents. It sounds like them.
V8	A description of an image circulating in a group chat that appears to be a sexual image of a classmate. The classmate says it is not them. <i>(Teacher: read this card aloud only with counselor approval. It is described in words only; never display any image. Opted-out classes can substitute a different card.)</i>
V9	A chart titled "Teen screen time is up 300%!" shows two bars. The side axis has no label, and the source says only "a survey." There is no date, and no number of people surveyed. (Data check: who is it about, when, who collected it, one source or several, where does the scale start?)

Teacher reminder: V7 and V8 are the special cases: V7 is a call-back and code-word case; V8 is a harm case where "is it real?" is not the main question. Use the Response Drill from Lesson 5 for V8.

R7. Line-Up Materials (Lesson 7)

Sensitive lesson. Use only after the Counselor Heads-Up Checklist (R11) is complete.

Color code (print on the board or handout)

- **GREEN:** healthy
- **YELLOW:** watch closely, or it depends
- **RED:** not okay: control or coercion

**Consent is freely given, specific, ongoing, and can be withdrawn.
Pressure, threats, and guilt are not consent.**

7

Device safety (handout line). If you suspect someone is monitoring your device, do not confront them first. Use a device they cannot see (a school or library device, or a trusted person's phone) to look for help. Clearing your history can sometimes alert a monitoring person, so ask a counselor for a safe approach [VERIFY].

Boundary sentences (cards)

- "I'm not comfortable with that. I'm saying no."
- "I need privacy on my phone. That is not about you."

Capstone Rubric (teacher use; four levels)

Score the **Teach Card**, the observed **teach-back**, and the **exit reflections**. Do **not** score the private Defense Plan.

CRITERION	4: STRONG	3: SOLID	2: DEVELOPING	1: BEGINNING
Accuracy and defense-only content	Accurate and defense-only; correct on recognition and response; flags uncertain facts honestly	Mostly accurate and defense-only; one minor error	Several errors or a vague claim	Inaccurate, or includes attack-method content or real incidents
Clarity and teach-back	Clear structure (Pattern, Pause, Check, Tell); easy to follow in 90 seconds; checks for understanding	Clear with minor gaps	Hard to follow or missing a section	Unclear or off-topic
Personalization and actionability	Plan is specific to the student's life; actions have dates; plan includes a review date	Mostly specific; some actions undated	General or vague; few actions	Not completed or not actionable
Help-seeking and respect	Tell step is concrete (who, how, first sentence); tone is shame-free and respectful; names more than one support route	Tell step present and respectful	Tell step vague or tone slips into blame or fear	Tell step missing, or tone is shaming or alarming

Score range: 4-16. Suggested reporting: 13-16 Strong, 9-12 Solid, 5-8 Developing, 4 Beginning. Use for feedback; consider pass or complete for grades.

R11-E. Parent Pre-Notice Letters

SEND IN THE FAMILY'S home language where possible [VERIFY translations by qualified translators]. Edit the bracketed fields.

GENERAL LETTER (BEFORE LESSON 1)

FIELD NOTE	No. 1
Dear families, This [term/semester], our grade 9-12 students will take part in Your Digital Defense Plan, a ten-lesson digital safety and security program (about 15 minutes a week). Students will build a personal plan for staying safe online, covering passwords and accounts, scams and AI fakes, privacy and location, how to respond to threats and pressure, how to help a friend, and the law, ethics, and careers of cybersecurity. The program uses paper, discussion, and fictional scenarios. It does not require student accounts or collect student data. Each lesson sends home a short card with a conversation starter and an optional reply slip. Two lessons (on image-based threats and on pressure in relationships) will have separate notices with an opt-out option. To review materials, contact [name, contact]. Sincerely, [name, title]	

LESSON 5 LETTER (SEXTORTION AND IMAGE ABUSE)

FIELD NOTE

No. 2

Dear families,

Next week in [class/advisory], our grade 9-12 students will have a 15-minute lesson on **how to respond if someone uses private images or threats to pressure a teen online** (often called sextortion), including AI-generated fake images. The lesson is part of our digital safety program, [program name]. It focuses on a clear response plan (stop, save details, tell a trusted adult, report) and on the message that **a teen who is targeted is never to blame**. The lesson contains **no explicit images or descriptions** and uses a fictional example.

Why we are teaching it: reports of this crime involving teens have risen sharply (NCMEC received more than 50,000 financially motivated sextortion reports in 2025, up from more than 36,000 in 2024), and telling a trusted adult quickly is how a teen gets help and a report gets made [VERIFIED 2026-10-05: ncmec.org/blog/2026/ncmec-releases-new-sextortion-data-2025].

Your options: You may review the lesson materials by contacting [name, contact]. If you prefer that your teen not take part, please tell us by [date] using [form/email/phone]. Your teen will have an alternate lesson on pressure and blackmail that does not involve intimate images, and will still get the helpline information. Opting out is private; classmates will not be told.

A suggested conversation starter at home: "If anyone ever pressured or threatened you online, would you tell me? What would make that easier?" Tell them they will not be in trouble.

Resources: NCMEC Take It Down (takeitdown.ncmec.org), NCMEC CyberTipline (report.cybertip.org, 1-800-843-5678) [VERIFIED 2026-10-05: report.cybertip.org].

Sincerely, [name, title]

LESSON 7 LETTER (COERCION IN RELATIONSHIPS ONLINE)

FIELD NOTE	No. 3
Dear families, Next week, our grade 9-12 students will have a 15-minute lesson on healthy and unhealthy digital behavior in relationships: how to recognize pressure or control online (for example, being pushed to share passwords or locations, constant monitoring, or pressure to send images), what consent means, and where to get help. The lesson uses short fictional statements and discussion. It does not include explicit content and does not ask students to share personal experiences. It applies to romantic relationships, friendships, and family. Why: research and national hotlines report that digital monitoring and pressure are common in unhealthy teen relationships, and teens often tell a friend before they tell an adult [VERIFY with loveisrespect.org and CDC dating violence data]. Your options: To review the materials, contact [name, contact]. If you prefer that your teen not take part, tell us by [date] using [form/email/phone]. Your teen will have an alternate lesson on boundaries and privacy among friends and in group chats, and will still receive helpline information. Opting out is private. A conversation starter at home: "What does a respectful relationship look like online? What would you want me to say if you ever felt pressured?" Resources: loveisrespect.org (call 1-866-331-9474 or text LOVEIS to 22522) [VERIFY current contact methods]. Sincerely, [name, title]

LESSON P1 PRE-NOTICE (SEND AT LEAST 5 SCHOOL DAYS AHEAD; HOME LANGUAGE WHERE POSSIBLE [VERIFY TRANSLATION])

FIELD NOTE	No. 30
Dear families, Next week in [class/advisory], our grade 9-12 students will have a 15-minute lesson on how to recognize online offers and relationships that use pressure, debt or control to exploit people (human trafficking), and how to get help. Florida asks schools to teach students to recognize and report human trafficking. The lesson uses made-up messages. It contains no explicit content, no real cases and no descriptions of what happens to victims, and students never act out a victim or a recruiter. Why we are teaching it: young people are safer when they know the warning signs, who to tell and where to report, and when they know it is never their fault. Your options: You may review the materials by contacting [name, contact]. If you prefer that your teen not take part, tell us by [date] using [form/email/phone]. Your teen will have an alternate lesson on job scams and will still get the reporting information. Opting out is private. A conversation starter at home: "If an offer asked you to keep a secret or hand over your ID, what would you do?" Tell your teen they will not be in trouble for telling you. Resources: Florida Human Trafficking Hotline 1-855-FLA-SAFE (1-855-352-7233); National Human Trafficking Hotline 1-888-373-7888; Florida Abuse Hotline 1-800-962-2873; in danger: 911 [VERIFIED 2026-10-05: fdle.state.fl.us; humantraffickinghotline.org; myflfamilies.com]. Sincerely, [name, title]

Dear families,

Next week our grade 9-12 students will have a 15-minute lesson on **how social media can affect sleep, mood, relationships and attention**, and what to do about it. Florida asks schools to teach the effects of social media on mental health. The lesson uses made-up examples; students are never asked to share their own screen time or feelings. The school counselor will be available. If you prefer that your teen do an alternate activity, tell us by [date].

At home: "Which app is hardest for you to put down? What would help?" If your teen seems down, withdrawn or hopeless, please involve the school counselor or your doctor. Call or text 988 any time [VERIFIED 2026-10-05: 988lifeline.org, as tagged in C1].

Sincerely, [name, title]
