TO VERIFY

Consult counsel and policy. Surveys of students can be subject to parental-notice or consent requirements under federal and state law, including the Protection of Pupil Rights Amendment (PPRA) for surveys on certain topics, as well as FERPA and state student-privacy law. **Keep these surveys to knowledge, skills and confidence.** Do not add questions about a student's own experiences, sex behavior or attitudes, illegal or demeaning behavior, mental or psychological problems, family relationships, religion, politics or income. In its August 26, 2026 letter to states and districts, the US Department of Education said a survey on those eight protected areas given by a teacher, counselor or other school official is treated as required, so the school must let parents review it and get written parental consent first; an opt-out is not enough. Parents also have PPRA rights to inspect surveys and instructional materials, and mental-health screeners fall in the protected area. Rights pass to the student at 18. [VERIFIED 2026-10-05: studentprivacy.ed.gov, SPPO letter of Aug. 26, 2026; law.cornell.edu/uscode/text/20/1232h] Confirm with your administrator and district counsel. Check with your administrator and district counsel before administering and before sharing any results. Items marked [VERIFY] need confirmation.

01 Purpose and how this pack works

What this measures. This pack helps your class and school see whether students are gaining the skills the curriculum teaches: **Hackles up? Pause. Check. Tell.** and the **Help Ladder** (and, from grade 6, **STOP, SAVE, TELL, REPORT**). It focuses on **help-seeking, recognition, and confidence**, not trivia.

What you get

- A short pre/post survey for each of the four grade bands (K-2 is oral and picture-based).
- An answer key and scoring guide.
- A skill rubric and a role-play observation checklist for performance-based assessment.
- A class tally sheet.
- A teacher feedback form and a one-page administrator summary.
- An honest note on what these results can and cannot show.

Design choices

- **Three core items per band** (marked with a star) are the minimum if you are short of time. They measure the central outcome: knowing what to do and being willing to tell.
- **Pre and post surveys are identical** so that results can be compared. The post survey adds two feedback questions that are not compared.
- **No student names are needed.** Students use a simple code to allow matching (see Section 2).
- **No grades.** These are learning check-ins. Tell students plainly that they are not tests and no one is in trouble for any answer.
- **No fear.** Scenarios are general and not graphic.

Timing

MOMENT	WHAT TO DO	TIME
Before Lesson 1	Pre survey	10-15 minutes (K-2: about 10 minutes orally)
During the program	Observe role-plays with the rubric (optional)	Built into lessons
After the last lesson	Post survey	10-15 minutes
4 to 8 weeks later (optional)	Delayed post survey, to see what lasted	10-15 minutes

02 Administration guide (all bands)

Before you start

- Confirm that your administrator has approved the surveys and any required family notice. [VERIFY]
- Tell your counselor when you will administer the survey. Some students may react to topics, and some may write something concerning in an open answer. A counselor should be available.
- Print enough copies. Bring pencils or crayons.
- Decide how students will create matching codes (below).

Matching codes (so you can compare pre and post without names)

Use one method for your whole class:

- **Method A, student code:** First letter of your favorite color + the day of the month you were born (two digits) + the last letter of your street name or pet's name. Example: B-07-S. Keep it private.
- **Method B, teacher-held number:** Give each student a number from a roster that only you keep, on a locked or private list. Write the number on a sticker. This is simpler for younger students.
- If students cannot or do not want to give a code, their survey is still useful for the class tally. They simply do not count in matched analysis.

Read this aloud before the survey

"We are going to answer some questions about staying safe and kind online. This is not a test. There are no grades. Nobody will get in trouble for any answer. Your answers help us make the lessons better. You can skip any question. If anything in the survey makes you feel worried or upset, tell me, or you can talk to [counselor]. Please do not put your name on this paper."

Setting the room

- Seat students so they cannot see each other's papers, but do not make it feel like a test.
- Read aloud for students who need it. Reading support, extra time, and translation are always allowed. [VERIFY IEP and 504 accommodations]
- Do not help students choose answers. You may read items again.

If a student writes something concerning

- Open-ended answers may contain disclosures. Read them the same day.
- If a response suggests a student is being harmed, is at risk, or has harmed someone, follow the **Disclosure and Incident Guide** and your school's policy. Do not wait for the class results.

- Even anonymous surveys can reveal a student's identity from handwriting or details. Treat concerning content as a disclosure.

After the survey

- Collect papers and store them securely. Do not leave them in a shared folder or on a personal device.
- Enter group totals on the Class Tally Sheet and then follow your district's data retention policy. [VERIFY]
- Share only class-level summaries. Do not share individual surveys.
- Thank students for their honesty.

03 Pre/post survey: K-2 (picture-based, read aloud)

How to give it. Hand each child a half-sheet printed with the picture choices below (one row per question). Read each question aloud twice. Children circle a picture. Walk around and quietly help children who need it. Total time about 10 minutes. Items marked with a star are the **core three**.

Child's code: _____ **Circle one:** BEFORE (pre) AFTER (post)

Question 1 (star). "Something online felt yucky or scary. Circle the grown-ups you could tell."

- A family grown-up
-  My teacher
-  The school counselor
- A person I only know from a game
-  Nobody

Question 2. "A pop-up says, 'You WON! Click here!' What do you do?"

-  Stop and ask a grown-up
- Click it fast

Question 3. "Who can know your secret password?"

- Just me and my grown-up
- All my friends
- Everyone

Question 4 (star). "Someone in a game asks you to send a picture of yourself. What do you do?"

- Tell a grown-up
- Send it
-  Keep it a secret

Question 5 (star). "If you tell a grown-up about something yucky online, will you get in trouble?"

- No, I will not be in trouble
- Yes, I will be in trouble

Question 6. "Can a computer make a picture look real when it is pretend?"

-  Yes
-  No

Question 7 (feelings). "How do you feel about telling a grown-up when something is yucky?"

- (smile) Okay, I can do it
- (neutral) A little worried
- (worried) Very worried

Question 8 (hackles, picture-based). "Sometimes you get an 'uh-oh' feeling, like your hackles are going up, when something online is odd. Which face looks like that feeling? What would you do?"

- (worried) Uh-oh feeling, and I stop and tell a grown-up
- (smile) No feeling, I just keep going
- I am not sure

Post survey only: feedback (not scored)

- "Did you like the Hackles lessons?" (smile) (neutral) (worried)
- "What was your favorite part?" (Child draws or tells the teacher, who writes down the words.)

Teacher administration notes

- Read answer choices in a different order each time so that children do not favor the first or last choice.
- Children may point to their choice and let you mark it, if circling is hard.
- Do not show approval or disapproval for any choice.
- Note: Question 5 is about belief. A child who circles "yes, I will be in trouble" gives you important information. Tell the child gently, "Telling is never trouble," and plan more practice. Alert the counselor if a child seems very worried.

04 Pre/post survey: Grades 3-5

Code: _____ **Circle one:** BEFORE AFTER **Date:** _____

This is not a test. Nobody gets a grade. Please do not write your name. You can skip any question.

1 (star). Someone in a game says, "Let's chat on a different app, and don't tell your parents." What is the BEST first move? (Circle one.)

- A. Go to the other app, since they seem nice.
- B. Pause, don't answer, and tell a trusted adult.
- C. Ask them to prove they are a kid.
- D. Block them but tell nobody.

2. Which is the strongest password? (Circle one.)

- A. Fluffy2014
- B. MySchoolName123
- C. purple-kettle-jump-river
- D. password!

3. A message says, "Free 10,000 game coins! Type your password to get them." What should you do? (Circle one.)

- A. Type the password. It's free!
- B. Do not answer, and show a trusted adult.
- C. Send it to your friends so they get coins too.
- D. Type a fake password.

4 (star). True or false: "If I tell a trusted adult about a mistake I made online, I will probably get in trouble." (Circle one.)

- True
- False
- I'm not sure

5. Write the names or roles of two trusted adults you could tell.

1. _____ 2. _____

6. A classmate is being picked on in a group chat. Which is an upstander move? (Circle one.)

- A. Join in so that you are not the next target.
- B. Say nothing and watch.
- C. Tell a trusted adult and be kind to the classmate.
- D. Share the messages with other people.

7 (star). How sure are you that you would tell a trusted adult if something online scared you? (Circle one.)

- 1 Not at all sure
- 2 A little sure
- 3 Pretty sure
- 4 Very sure

8. How can you check whether a picture online is real or made by a computer? (Circle one.)

- A. If it looks real, it is real.
- B. Ask who made it and why, and ask a trusted adult to help check.
- C. Share it and see what people say.
- D. You can never check.

9. You clicked a link by mistake. What are the first two steps? (Circle one.)

- A. Hide it and hope nothing happened.
- B. Stop, tell a trusted adult, then change passwords if needed.
- C. Delete the app.
- D. Click more links to fix it.

10. Noticing your hackles. How sure are you that you would notice the "uh-oh" feeling (your hackles going up) if something online seemed too good, pushy, secret, or scary? (Circle one.)

- 1 Not at all sure
- 2 A little sure
- 3 Pretty sure
- 4 Very sure

Post survey only: feedback (not scored)

- What is one thing you will do differently online now?

- What would you tell a friend about telling a trusted adult?

05 Pre/post survey: Grades 6-8

Code: _____ **Circle one:** BEFORE AFTER **Date:** _____

This is not a test and it is not graded. Do not write your name. Your answers help us improve these lessons. You can skip any question. If anything worries you, you can talk to your teacher or [counselor name] at any time.

1 (star). Someone you met in a game becomes very friendly, sends gifts, asks you to move to a private app, and tells you not to tell your parents. Which of these are warning signs? (Circle all that apply.)

- A. They are being friendly.
- B. They want to move to a private app.
- C. They ask you to keep it secret.
- D. They send gifts or game currency.
- E. They like the same game as you.

2 (star). Someone online threatens to share a private picture of you unless you send money or more pictures. Which are good first moves? (Circle all that apply.)

- A. Stop replying and do not pay.
- B. Save the account name and the messages (not the images).
- C. Pay once so it goes away.
- D. Tell a trusted adult.
- E. Delete everything and handle it alone.
- F. Report it on the app or to the right authority with an adult's help.

3. True or false: If a fake sexual picture of you is made by AI, it is your fault.

- True
- False
- Not sure

4. If I told a trusted adult about something scary that happened to me online, I think I would... (Circle one.)

- 1 Definitely get in trouble
- 2 Probably get in trouble
- 3 Probably not get in trouble
- 4 Definitely not get in trouble

5 (star). I know who I would tell and how to tell them. (Circle one.)

- 1 Strongly disagree

- 2 Disagree
- 3 Agree
- 4 Strongly agree

6. Which will most help keep an account safe if your password is stolen?

(Circle one.)

- A. A longer username.
- B. Two-step verification.
- C. Changing your profile picture.
- D. Making your account public.

7 (star). Write the first sentence you would say to a trusted adult to start telling them about something that happened online.

8. True or false: An AI chatbot is the best person to tell about a serious worry or danger.

- True
- False
- Not sure

9. A friend sends you a screenshot of a classmate's private picture. What do you do? (Circle one.)

- A. Forward it to someone else as a joke.
- B. Do not forward it, tell a trusted adult, and support your classmate.
- C. Save it in case you need it later.
- D. Post a comment about it.

10. Out of 10 students in your grade, how many do you think would help a friend who was being targeted online? (Circle a number.) 0 1 2 3 4 5 6 7 8 9

10

11. Noticing your hackles. How sure are you that you would notice the "uh-oh" feeling (your hackles going up) when a message, request, or situation online seemed off, even if you could not say why yet? (Circle one.)

- 1 Not at all sure
- 2 A little sure
- 3 Pretty sure
- 4 Very sure

Post survey only: feedback (not scored)

- Which lesson helped you most? _____
- What would make telling a trusted adult easier? _____

06 Pre/post survey: Grades 9-12

Code: _____ **Circle one:** BEFORE AFTER **Date:** _____

This is not graded and is not a test. Please do not write your name or details that identify you or others. You can skip any question. If anything raises a concern for you, you can talk to [counselor name] or any trusted adult. Support: call or text 988; text HOME to 741741 [VERIFIED 2026-10-05: 988lifeline.org; crisistextline.org].

1 (star). A person you met online says they have a private image of you and demands money or more images. Which response is BEST?

- A. Pay once to make it stop.
- B. Stop responding, do not pay, save the evidence, tell a trusted adult, and report.
- C. Send what they ask so they leave you alone.
- D. Delete everything and tell no one.

2. Mark each statement True (T) or False (F).

- a. Paying usually ends the demands. T / F
- b. NCMEC's Take It Down service can help remove images of people who were under 18 when the image was made. T / F [VERIFIED 2026-10-05: takeitdown.ncmec.org]
- c. Creating a sexual AI image of a classmate can be abuse, even if the image is fake. T / F
- d. Being threatened or tricked is the victim's fault. T / F
- e. Reporting to the platform is one way to try to get content removed. T / F

3. How confident are you that you could explain the steps for responding to image abuse to a friend? (Circle one.)

- 1 Not at all confident
- 2 Slightly confident
- 3 Somewhat confident
- 4 Very confident
- 5 Extremely confident

4 (star). If something like this happened to me or a close friend, how likely is it that I would tell a trusted adult? (Circle one.)

- 1 Very unlikely
- 2 Unlikely
- 3 Not sure
- 4 Likely
- 5 Very likely

5. What would make you hesitate to tell? (Circle all that apply. Not scored; helps us improve.)

- A. I'd be embarrassed.
- B. I'd worry about being punished.
- C. I'd worry my phone would be taken away.
- D. I would not know who to tell.
- E. I'd worry that people would find out.
- F. I'd think nothing could be done.
- G. Nothing would stop me.

6. Which is the strongest way to protect your most important account?

- A. The same password everywhere.
- B. A unique passphrase in a password manager plus two-step verification or a passkey.
- C. A password with your birthday.
- D. Sharing your password with a close friend.

7. A shocking video of a public figure is spreading. What is the best first step?

- A. Share it quickly while it is trending.
- B. Check the original source, look for confirmation from reliable outlets, and hold off sharing.
- C. Decide it's real if it looks real.
- D. Decide it's fake because it is shocking.

8. A friend says they are in crisis and asks you to keep it secret. What is the best response?

- A. Promise to keep it secret.
- B. Listen, take it seriously, encourage them to talk to a trusted adult, and bring in an adult if they may be in danger.
- C. Tell them to stop feeling that way.
- D. Ignore it and hope it passes.

9. Which of these can be signs of controlling behavior in an online relationship? (Circle all that apply.)

- A. Demanding your passwords.
- B. Requiring you to share your location constantly.
- C. Checking in once in a while with your agreement.
- D. Getting angry when you do not reply immediately.
- E. Pressuring you to send pictures.

10 (star). Write a three-step plan you would follow if someone threatened you or a friend online.

Step 1: _____ Step 2: _____ Step 3:

11. Noticing your hackles. How likely are you to notice and name your "uh-oh" feeling (your hackles going up) when something online or in a relationship seems off? (Circle one.)

- 1 Very unlikely
- 2 Unlikely
- 3 Not sure
- 4 Likely
- 5 Very likely

Post survey only: feedback (not scored)

- What was most useful in this program? _____
- What would make it better? _____

6B. Plus-lesson check-in items (unscored; optional)

What this is. Short paper items for the Plus lessons (6-8 P1 to P3; 9-12 P1 to P4). They are for a quick class check after the lesson, not for the pre/post comparison. **They are not starred, not scored, and not part of the "Total knowledge" or the "Core three."** Tally each item by class and use it to decide what to revisit.

Rules for these items.

- They ask about knowledge and skills only. Do not add questions about a student's own experiences (including being offered work, being pressured or controlled, or being bullied), mood, mental or psychological problems, or screen habits. A teacher, counselor or other school official giving such a survey falls under the PPRA protected areas and would need parent review and written consent first [VERIFIED 2026-10-05: studentprivacy.ed.gov, SPPO letter of Aug. 26, 2026; law.cornell.edu/uscode/text/20/1232h]. Confirm with your administrator and district counsel.
- The class matching code is not needed. Use them as an exit-ticket supplement or a warm-up the next day.
- Read open answers the same day. If anything sounds like a disclosure, follow the Disclosure and Incident Guide (Section 6B there).
- Trafficking items (6-8 P1-a and P1-b; 9-12 P1-a and P1-b) are used only after the trafficking Plus lesson has been taught and only after the specialist review of the lesson is complete.

GRADES 6-8 PLUS ITEMS (CIRCLE OR WRITE; NO NAMES)

P1-a (after Plus P1). Which of these can be flags that an online offer is a trick? (Circle all that apply.)

- A. It asks you to keep it secret.
- B. It promises big pay for very little work.
- C. It names a person at your school and says families can call.
- D. It asks you to hand over your ID or phone.
- E. It wants you to move to another app "so nobody sees."

P1-b (after Plus P1). A friend says someone online offered them money and told them not to tell anyone. What is the best next step?

- A. Tell your friend it is probably fine.
- B. Help your friend tell a trusted adult, who can call a hotline if needed.
- C. Message the person yourself and ask what they want.
- D. Keep it secret to protect your friend.

P2-a (after Plus P2). Which sentence is the most accurate?

- A. Social media causes depression in everyone.
- B. Researchers are still working out how much social media affects mood, and it is different for different people.
- C. Every like works exactly like a drug.
- D. Nobody is ever affected by social media.

P2-b (after Plus P2). A made-up character is tired every day, cannot stop checking the phone, and says they feel hopeless. What is the best next step?

- A. Wait a few weeks to see if it gets better.
- B. Tell a trusted adult today. The school counselor can help, and 988 can be called or texted.
- C. Delete all the apps and say nothing.
- D. Post about it and wait for replies.

P3-a (after Plus P3). A post says "SCHOOL CLOSED TOMORROW! Tell everyone!" Before sharing, what should you do? (Circle all that apply.)

- A. Check who made it.
- B. Look for the school's own announcement.
- C. Forward it fast in case it is true.
- D. Notice whether it is trying to scare or rush you.

P3-b (after Plus P3). A chart shows two bars, 91 and 94, but the side scale starts at 90 so one bar looks twice as tall. What is the problem?

- A. The scale makes a small difference look huge.
- B. There is no problem.
- C. The chart is too colorful.

GRADES 9-12 PLUS ITEMS**P1-a (after Plus P1). Match each message to a stage: HOOK, MOVE, BIND or CONTROL.** (1) "Do not tell your mom about this. She will ruin it for you."
----- (2) "Give me your phone and ID. I will hold them for you." -----**P1-b (after Plus P1). Name one place a trusted adult can report suspected human trafficking.** -----

P2-a (after Plus P2). Mark each True (T) or False (F). (a) Whether someone's use has become a health problem is decided by a doctor or counselor, not by a quiz. T / F (b) Social media causes depression in everyone. T / F (c) Apps use features like notifications and streaks on purpose to hold attention. T / F (d) If you cannot cut down, it is your fault. T / F

P2-b (after Plus P2). Write one adjustment a made-up character could try, and one person or number they could use if it did not help.

P3-a (after Plus P3). Infinite scroll mainly serves whose goal? A. The user's goal of finishing quickly. B. The platform's goal of more time on the app. C. Neither. (Then write one counter-move: -----)

P4-a (after Plus P4). Name two of the four questions that help tell mean from harmful. -----

P4-b (after Plus P4). A private, intimate picture of a classmate is being passed around a group chat. What is the right way to help? (Circle one.)

- A. Screenshot it as proof.
- B. Save only the words, username, link and date. Do not save or send the picture. Tell a trusted adult.
- C. Forward it to a teacher.
- D. Delete the chat and say nothing.

KEY AND TALLY FOR THE PLUS ITEMS (UNSCORED; CLASS-LEVEL ONLY)

ITEM	BEST ANSWER	WHAT TO LOOK FOR
6-8 P1-a	A, B, D, E (not C)	Does the class spot secrecy, big pay, handing over ID or phone, and a push to move?
6-8 P1-b	B	Does anyone choose D (keep it secret)? Revisit "a real offer can stand being talked about."
6-8 P2-a	B	C and A are the popular overstatements; revisit "solid, still studied, hype."
6-8 P2-b	B	Anyone choosing A, C or D: revisit the GET HELP TODAY card.
6-8 P3-a	A, B, D (not C)	Does the class use the Check Strip?
6-8 P3-b	A	Does the class see the scale, not just the bars?
9-12 P1-a	(1) BIND; (2) CONTROL	Accept BIND or CONTROL for either with a reason; the point is the pattern.
9-12 P1-b	Florida Human Trafficking Hotline 1-855-FLA-SAFE, National Human Trafficking Hotline 1-888-373-7888, Florida Abuse Hotline 1-800-962-2873 (for a child who may be abused or neglected), or 911 for danger [VERIFIED 2026-10-05: fdle.state.fl.us; humantraffickinghotline.org; myflfamilies.com]	Any one counts; a trusted adult first is also fine.
9-12 P2-a	a T, b F, c T, d F	b and d are the overstatements and the shame statement.
9-12 P2-b	Any real adjustment plus a named person or 988	Tell is present.
9-12 P3-a	B; counter-moves such as a timer or a stopping rule	Does the student name whose goal it serves?
9-12 P4-a	Any two of Repeated, Hurtful, Public or hidden, Power	
9-12 P4-b	B [COUNSEL TO CONFIRM]	Anyone choosing A or C: revisit the three-case evidence rule.

Tally: number of students who gave the best answer, out of the number who answered. Do not report these as part of the Tell-Readiness indicator.

07 Scoring guide and answer keys

General rules

- Score only students who completed the item. Leave skipped items blank and do not count them as wrong.
- Use the **same scoring** for pre and post.
- Score pre and post for the same student on the same day, if possible, to stay consistent.
- Convert to class percentages for the tally sheet.

K-2 KEY (8 ITEMS)

ITEM	BEST ANSWER	POINTS
1 (star)	Any of: family grown-up, teacher, counselor. Not: online person, nobody.	1 point if at least one trusted adult is circled and "nobody" and "online person" are not circled.
2	Stop and ask a grown-up	1
3	Just me and my grown-up	1
4 (star)	Tell a grown-up	1
5 (star)	No, I will not be in trouble	1
6	Yes	1
7	Feelings item, not scored. Tally the three faces to see how comfortable children feel.	0
8	Hackles noticing item (picture-based), not scored. Tally "Uh-oh feeling, and I stop and tell a grown-up" to see how many children can notice the feeling and act on it.	0
Total		6

Core three score (K-2): items 1, 4, 5 = 3 points.

GRADES 3-5 KEY (10 ITEMS)

ITEM	BEST ANSWER	POINTS
1 (star)	B	1
2	C	1
3	B	1
4 (star)	False (telling is not getting in trouble). "Not sure" = 0.	1
5	1 point per trusted adult named, up to 2. A trusted adult is a family member, teacher, counselor, coach, or similar. Not: an online-only contact, or "nobody."	2
6	C	1
7 (star)	Confidence item, 1 to 4. Score as given. For percent "confident," count 3 and 4.	Scale 1-4
8	B	1
9	B	1
10	Hackles noticing scale 1-4, not scored and not a core item. Count 3 and 4 as "confident they would notice."	Scale 1-4
Total knowledge	Items 1, 2, 3, 4, 5, 6, 8, 9	9

Core three (3-5): items 1, 4, 7.

GRADES 6-8 KEY (11 ITEMS)

ITEM	BEST ANSWER	POINTS
1 (star)	B, C, D are warning signs. A and E are not. 1 point for circling all three of B, C, D and none of A or E.	1
2 (star)	Good: A, B, D, F. Not good: C, E. 1 point if A, D, and at least one of B or F are circled and neither C nor E is circled.	1
3	False	1
4	Belief scale 1-4. Higher is better. Count 3 and 4 as "unlikely to be in trouble."	Scale 1-4
5 (star)	Confidence 1-4. Count 3 and 4 as "confident."	Scale 1-4
6	B	1
7 (star)	Open response; use the open-response rubric below.	0-2
8	False	1
9	B	1
10	Peer norm estimate 0-10. Not scored. Track the class average.	None
11	Hackles noticing scale 1-4, not scored and not a core item. Count 3 and 4 as "confident they would notice."	Scale 1-4
Total knowledge	Items 1, 2, 3, 6, 8, 9 (6 points) + item 7 (2 points)	8

Core three (6-8): items 2, 5, 7.

Open-response rubric for Item 7 (6-8)

SCORE	DESCRIPTION	EXAMPLE
0	No answer, a joke, or a blame statement	"I wouldn't."
1	Sentence names a worry or asks for help but is vague	"I need to talk."
2	Clear help-seeking sentence that names the issue (even generally) and asks for support	"Something happened online and I need your help."

GRADES 9-12 KEY (11 ITEMS)

ITEM	BEST ANSWER	POINTS
1 (star)	B	1
2	a F, b T, c T, d F, e T. 1 point for 4 or 5 correct.	1
3	Confidence 1-5. Count 4 and 5 as confident.	Scale 1-5
4 (star)	Likelihood 1-5. Count 4 and 5 as likely.	Scale 1-5
5	Barriers, not scored. Tally the number of students circling each barrier before and after.	None
6	B	1
7	B	1
8	B	1
9	A, B, D, E are signs. C is not. 1 point for A, B, D, E and not C.	1
10 (star)	Open response, rubric below.	0-3
11	Hackles noticing scale 1-5, not scored and not a core item. Count 4 and 5 as "likely to notice."	Scale 1-5
Total knowledge	Items 1, 2, 6, 7, 8, 9 (6 points) + item 10 (3 points)	9

Core three (9-12): items 1, 4, 10.

Open-response rubric for Item 10 (9-12)

SCORE	DESCRIPTION
0	No answer or a harmful or blaming plan (pay, handle it alone, retaliate)
1	One useful action named (for example, "tell someone")
2	Two useful actions from STOP, SAVE, TELL, REPORT
3	A sequenced plan that includes TELL a trusted adult and at least one of SAVE or REPORT, with no harmful steps

SCORING THE "TELL-READINESS" INDICATOR (ALL BANDS)

Because help-seeking is the central outcome, track one simple indicator for each band: the percent of students who give the **best answer** to the two or three **core items**. This is the most meaningful number in the pack.

BAND	CORE ITEMS	MEANING
K-2	1, 4, 5	Names a trusted adult, would tell, expects no trouble
3-5	1, 4, 7	Knows the best first move, does not expect trouble, is sure they would tell
6-8	2, 5, 7	Knows response steps, feels able to tell, can say the first sentence
9-12	1, 4, 10	Chooses the best response, is likely to tell, can write a plan

08 Skill rubric: Hackles (notice, Pause, Check, Tell) and the Help Ladder

When to use. During role-plays and activities in the lessons, or in a short teacher check at the end of the program. Observe each student at least once. Score what you see and hear, not what you assume.

Scale: 1 Beginning, 2 Developing, 3 Proficient, 4 Extending

SKILL	1 BEGINNING	2 DEVELOPING	3 PROFICIENT	4 EXTENDING
HACKLES UP? (notice the "uh-oh" feeling)	Does not notice, or does not say anything is off	Notices with a prompt ("How did that feel?") or after the fact	Notices on their own and names the feeling or the sign (too good, pushy, secret, scary)	Notices early, names what set it off, and helps a peer notice; treats a false alarm as fine
PAUSE (stop before reacting)	Reacts right away (clicks, replies, shares)	Pauses with a prompt from the teacher or peer	Pauses on their own and says or shows "stop"	Pauses and helps a peer to pause; names why
CHECK (is it real, who is it)	Does not check	Checks with a prompt, or names one sign	Names two or more checks (who sent it, asks for a password or picture, urgency, secrecy)	Applies checks to a new situation and explains why they matter
TELL (go to a trusted adult)	Does not name a person or is unsure	Names a trusted adult but struggles to say what to say	States who they would tell and says a clear first sentence	Chooses a different adult if the first is not available; supports a friend to tell
HELP LADDER (rungs: friend, trusted adult, report or helpline)	Names one rung	Names two rungs	Names all three rungs and explains when to go up	Applies the ladder to a new case and explains persistence ("Keep telling until someone helps")
RESPONSE DRILL (grades 6-12: STOP, SAVE, TELL, REPORT)	Knows one step	Knows two steps	Knows all four steps in order	Explains each step's purpose and adapts to the situation without blaming the victim
NO-BLAME MINDSET	Uses blaming language ("they should have...")	Uses neutral language with prompts	Says "It is not their fault" and names who is responsible	Challenges blame language kindly when others use it

BAND-SPECIFIC "LOOK-FORS" FOR PROFICIENT (3)

BAND	WHAT PROFICIENT LOOKS LIKE
K-2	Child points to or names the "uh-oh" feeling (hand brushed up the neck, or pointing to the worried face); points to or names three trusted grown-ups; says "I need help" in a clear voice; says "Stop, ask a grown-up" for a pop-up or a stranger's request; expects not to be in trouble.
3-5	Child says what their hackles felt like in a scenario (tummy, neck, hands) and what set it off; plays all three rungs of the Help Ladder in a role-play; names two red flags in a game chat; uses the Family Code Word rule or Oops Recovery steps.
6-8	Student names the "uh-oh" feeling and the sign behind it before acting; describes STOP, SAVE, TELL, REPORT; can tell the difference between a safe friend and a grooming pattern; says "It is not your fault."
9-12	Student describes how they notice their own hackles and what they do next; creates a personal Defense Plan with at least three protective steps and a help plan; can teach a peer one skill; shows ethical reasoning.

CONVERTING RUBRIC SCORES

- For individual feedback: write one "glow" (a strength) and one "grow" (a next step) in kid-friendly words.
- For class data: count how many students scored 3 or 4 in each skill (proficient or above). Use the Class Tally Sheet.
- Do not use rubric scores for grades unless your administrator approves. They are formative.

09 Role-play observation checklist

USE ONE SHEET FOR the class. Mark "√" when you see the behavior. Use initials or student numbers, not full names, and store securely.

LOOK-FOR	STUDENT #	STUDENT #	STUDENT #	STUDENT #	STUDENT #	STUDENT #
Stops before reacting						
Names a sign something is not safe						
Says a clear sentence to start telling						
Names at least one trusted adult						
Names all rungs of the ladder (3-12)						
Uses STOP, SAVE, TELL, REPORT in order (6-12)						
Uses no-blame language						
Offers support to a peer						
Needed a prompt (note which)						

10 Class tally sheet

Teacher: _____ Class/grade: _____ School: _____

Band: ☐ K-2 ☐ 3-5 ☐ 6-8 ☐ 9-12

Pre survey date: _____ Post survey date: _____

Students in class: _____ Students with a pre survey: _____ Students with
a post survey: _____ Matched pre/post pairs: _____

PART A. ITEM-LEVEL TALLY (CLASS TOTALS)

Write the number of students who gave the best answer for each item. "N" is the number who answered the item.

ITEM	PRE: NUMBER CORRECT	PRE: N	PRE: PERCENT	POST: NUMBER CORRECT	POST: N	POST: PERCENT	CHANGE (POST PERCENT MINUS PRE PERCENT)
1							
2							
3							
4							
5							
6							
7							
8							
9							
10							
11							
Core items combined							

Percent = number correct divided by N, times 100. Round to the nearest whole number.

PART B. CONFIDENCE AND WILLINGNESS ITEMS

ITEM	PRE: STUDENTS RATING 3 OR HIGHER (OR 4 OR HIGHER ON A 5-POINT SCALE)	PRE: N	PRE: PERCENT	POST: NUMBER	POST: N	POST: PERCENT	CHANG E
Confidence to tell (3-5 item 7; 6-8 item 5; 9-12 item 3)							
Belief that telling leads to no trouble (K-2 item 5; 6-8 item 4)							
Likelihood to tell (9-12 item 4)							
Confidence to notice the "uh-oh" feeling (3-5 item 10; 6-8 item 11; 9-12 item 11, 4 or higher on 5-point; K-2 item 8 picture choice)							

PART C. RUBRIC TALLY (OPTIONAL)

SKILL	NUMBER SCORING 3 OR 4 EARLY IN THE PROGRAM	NUMBER SCORING 3 OR 4 AT END	CLASS SIZE	CHANG E
Hackles up? (notice)				
Pause				
Check				
Tell				
Help Ladder				
Response Drill (6-12)				
No-blame mindset				

PART D. MATCHED PAIRS (STUDENTS WITH BOTH A PRE AND A POST)

For each matched student, record the core-items score (K-2, 3-5, 6-8, 9-12 each have three core items). Use the student code or number only.

STUDENT CODE	CORE PRE SCORE	CORE POST SCORE	CHANGE	UP, SAME, OR DOWN
1				
2				
3				

STUDENT CODE	CORE PRE SCORE	CORE POST SCORE	CHANGE	UP, SAME, OR DOWN
4				
5				
6				
7				
8				
9				
10				
11				
12				
13				
14				
15				
16				
17				
18				
19				
20				
21				
22				
23				
24				

STUDENT CODE	CORE PRE SCORE	CORE POST SCORE	CHANGE	UP, SAME, OR DOWN
25				
26				
27				
28				
29				
30				

SUMMARY	COUNT
Students who went up	
Students who stayed the same	
Students who went down	
Total matched pairs	

PART E. TEACHER REFLECTION

- Which items improved most? _____
- Which items did not change or got worse? _____
- Which lessons might need more time or practice? _____
- Anything surprising? _____
- Number of family reply slips returned: _____ of _____

11 Teacher feedback form

Teacher: _____ **Grade/band:** _____ **Date:** _____

Lessons taught: _____ of 10

Please complete after the program. Your feedback improves the kit. Do not include student names or identifying details.

A. Rate each statement: 1 Strongly disagree, 2 Disagree, 3 Agree, 4 Strongly agree

STATEMENT	1	2	3	4
The lessons fit in about 15 minutes.				
The scripts were easy to follow with little prep.				
The unplugged activities worked in my classroom.				
My students were engaged.				
The lessons were age-appropriate.				
The disclosure boxes were helpful.				
I felt prepared if a student disclosed.				
The Teacher Primer and FAQ were useful.				
The family materials were useful.				
The assessment was easy to give and score.				
Students seem more willing to tell a trusted adult.				
I would recommend this program to a colleague.				

B. Which three lessons worked best? _____

C. Which lessons need improvement, and how? _____

D. Were any activities hard for students with disabilities, English learners, or students without devices at home? _____

E. Delivery details

- Did you teach the lessons weekly? Yes / No. If not, what was the schedule? _____
- Did you use the optional slides? Yes / No
- Did you send the family letters? Yes / No
- Did the counselor receive a heads-up before sensitive lessons? Yes / No

F. Disclosures and concerns (numbers only; do not include names or details)

- Number of student disclosures or concerns raised during or after lessons: _____
- Number referred to the counselor or administrator: _____
- Number of reports made to CPS or law enforcement: _____ [Check your policy before recording this on a form.]
- What support would have helped you? _____

G. Family response

- Number of family reply slips returned: _____
- Common questions or concerns from families: _____

H. What would you change about the kit? _____

I. Self-care check: How are you doing after teaching these topics? (Optional)

12 Administrator impact summary (one page)

School: _____ Year: _____ Prepared by: _____ Date: _____

1. Reach

GRADE BAND	CLASSES	STUDENTS	LESSONS DELIVERED (OF 10)
K-2			
3-5			
6-8			
9-12			
Total			

2. Core results (class-level percentages, matched pairs only if available)

GRADE BAND	TELL-READINESS BEFORE	TELL-READINESS AFTER	CHANGE (PERCENTAGE POINTS)	MATCHED STUDENTS
K-2				
3-5				
6-8				
9-12				

3. Skills observed (rubric, optional): percent of students at Proficient or above in Hackles (notice), Pause, Check, Tell, Help Ladder:

4. Family engagement

- Letters sent: _____ Reply slips returned: _____ Family events or Hackles Day attendance: _____

5. Support and safety (counts only, no student information)

- Disclosures or concerns raised: _____ Referred to counselor: _____ Reports made as required: _____ [Include only what your policy permits]

6. Teacher feedback (average of "I would recommend this program," 1 to 4):

----- Key comments: -----

7. Compliance and standards (check all that apply)

- ☐ Internet-safety instruction records kept for CIPA and state requirements
[CIPA VERIFIED 2026-10-05: usac.org; confirm record-keeping rules with
your technology office]
- ☐ Standards aligned: ISTE, CSTA, CASEL [mapping checked 2026-10-05
against the published standards; say "mapped to", not "certified"]

8. What we learned (two or three sentences): -----

9. Limits of these data (please keep this paragraph when sharing): *These results come from short self-report surveys and teacher observation, without a comparison group. They show how students' answers and confidence changed during the program. They do not show that the program caused those changes, and they do not show changes in real-world behavior or safety.*

10. Next steps

- Keep doing: -----
- Improve: -----
- Resources needed (training, counselor time, translation):

Signed: -----

13 Honest note on evidence limits

WE BELIEVE THAT MEASURING the program is part of using it responsibly. Please read this section before you present any numbers.

What the research supports (and does not)

- Reviews of youth internet-safety education (for example, Finkelhor and colleagues, 2021 [VERIFY]) find that skills-based, multi-session programs with practice are more promising than one-time assemblies or fear-based warnings. This curriculum is built on those principles.
- That evidence base is **partly from related fields** (such as school-based abuse-prevention education), and it is not a guarantee about any one program.
- **We are not aware of a rigorous trial of a curriculum like this one** that shows it reduces real-world sextortion, image abuse, or other harm. [VERIFY: confirm no such trial exists at the time of publication] Anyone who tells you this program will "prevent" these harms is overstating.
- What you can responsibly say: the program teaches recognition and response skills, and it measures whether students' knowledge, confidence, and willingness to tell changed.

What these surveys can show

- Whether students' answers moved toward the best responses.
- Whether students became more confident and more willing to tell.
- Which lessons and items need more teaching.

What these surveys cannot show

- **Cause.** Without a comparison group, a change may be due to the program, to maturing, to other lessons, to news, to being asked the same questions twice, or to chance.
- **Behavior.** Surveys capture what students know and say they would do, not what they will do under real pressure.
- **Honest answers.** Students may choose the "right" answer because they think it is wanted (social desirability), especially after lessons that stress what to say. Post scores may be inflated for this reason.
- **Long-term effects.** A post survey right after the lessons shows short-term learning. Skills fade without review.
- **Small-class precision.** With fewer than about 20 matched students, percentage changes can swing a lot from a few students.
- **Ceiling effects.** If most students answer well before the program, there is little room to improve.

- **Fewer disclosures does not mean less harm, and more disclosures does not mean more harm.** After lessons, **disclosures often go up**, because students feel safer to tell. This is a sign the program is working. Do not treat an increase in disclosures as a failure.

Good practice

- Report results as "changes in students' survey answers," not "the program prevented harm."
- Share the limits paragraph with every summary.
- Avoid comparing teachers or classes with each other. Use the data to improve teaching.
- Protect students' privacy.
- If you want stronger evidence, partner with a university or district research office, and consider a comparison group and a delayed post survey (see Section 14).

14 How to run a simple pre/post analysis

YOU DO NOT NEED statistics software. A pencil, a calculator, and the Class Tally Sheet are enough.

STEP 1: GATHER

Collect all pre and post surveys. Check that each is the same version. Score each with the answer key. Exclude students who did not answer an item from that item's tally.

STEP 2: FIND CLASS PERCENTAGES FOR EACH ITEM

Percent correct = (number of students with the best answer divided by the number of students who answered) times 100.

STEP 3: CALCULATE THE CHANGE

Change in percentage points = post percent minus pre percent.

Worked example (grades 6-8, 24 matched students; invented numbers for illustration only)

ITEM	PRE CORRECT	PRE PERCENT	POST CORRECT	POST PERCENT	CHANGE
2 (response steps)	9 of 24	38 percent	19 of 24	79 percent	+41 points
5 (confident to tell, 3 or 4)	12 of 24	50 percent	18 of 24	75 percent	+25 points
7 (first sentence, score 2)	5 of 24	21 percent	14 of 24	58 percent	+37 points

Tell-Readiness (core items): add up all correct core answers across students and divide by the possible total (24 students times 3 items, or 72). If pre was 26 of 72 (36 percent) and post was 51 of 72 (71 percent), the change is +35 percentage points.

STEP 4: CHECK MATCHED PAIRS

Using Part D of the tally sheet, count students who went **up**, stayed the **same**, or went **down**.

- Example: 15 up, 7 same, 2 down. "Most students (15 of 24) improved. A few (2) went down."
- Look at students who went down or did not move. Offer additional practice.

STEP 5: LOOK AT THE ANSWER PATTERNS

- Which wrong answers were popular on the post survey? These show lingering misunderstandings.

- On the 9-12 survey, compare the "what would make you hesitate to tell" tallies before and after. If "worry about punishment" stays high, review how your school responds to disclosure.

STEP 6: ADD A SIMPLE REASONABLENESS CHECK

- **Small classes (under about 20):** treat results as informative but not conclusive. Combine classes in your school for the administrator summary.
- **Large changes (more than about 30 points):** a big jump may reflect that students learned the "right" answer, which is a good outcome, but check it against your observations and the rubric.
- **No change:** this is useful information. It might mean the students already knew the content, the lessons were rushed, or the item was unclear.
- **A drop:** can occur by chance. Look at it only if it appears across several classes.

STEP 7: OPTIONAL IMPROVEMENTS TO YOUR DESIGN

IMPROVEMENT	HOW	WHAT IT ADDS
Delayed post survey	Give the same survey 4 to 8 weeks later	Shows what lasted
Comparison group	Survey a class that has not yet had the lessons (for example, a class that will start next term) at the same two times	Helps rule out changes that would have happened anyway
Combine classes	Add up classes in the same band	Reduces random swings
Observe skills	Use the rubric in a role-play	Measures what students can do, not just what they say
Gather multiple years	Repeat each year	Shows trends and program effects over time
Third-party review	Have a university or district evaluator review your approach	Improves credibility

STEP 8: REPORT HONESTLY

Use language like this:

- **Good:** "Between September and December, the percentage of 6th graders who could name the correct first steps if threatened rose from 38 percent to 79 percent among 24 matched students."
- **Not good:** "The program reduced sextortion at our school."
- **Always include:** the number of students, that there was no comparison group, and the limits paragraph.

STEP 9: PROTECT DATA

- Store paper surveys securely and destroy them according to your district policy. [VERIFY retention rules]
- Report only class-level or school-level results. Do not report results for groups so small that a student could be identified (for example, fewer than 10 students in a subgroup) [VERIFY your district's suppression rule].
- Do not use survey results to evaluate individual students or teachers unless your administrator and policy approve it.

This pack is educational guidance, not legal or research advice. Consult counsel and district policy about survey consent, data privacy, and reporting.
