

Reading List: Teaching Digital Safety and Cybersecurity in K-12

The Hackles Kit

Hackles · a free kit · quillsup.org · October 2026

Every source here is either verified in the kit's verification reports (the Round 1 Fact-Check Report and the evidence file, both dated 2026-10-05) or marked [VERIFY]. "Verified" means the primary page was read on that date; pages change, so confirm again before you quote. Nothing on this list shows that Hackles works. Hackles has not been evaluated in a controlled trial.

How to cite in this course. Cite the organization's own page or report, not a news story about it. Give the title, the organization, the date and the date you accessed it. If you could not open the primary source, say so and write [VERIFY].

01 Required: the Hackles kit (free)

ALL FILES ARE IN the kit folders named. Week numbers show when each is due.

Common Sense Education and ConnectSafely newsletters (the Academy suggests a trusted monthly source)	[Availability not checked; VERIFY]
eSafety Commissioner (Australia), on targeting behaviors rather than technologies	[Site not reachable by the kit's checker: VERIFY]
NetSmartz (NCMEC), missingkids.org/netsmartz; Google Be Internet Awesome, beinternetawesome.withgoogle.com	[Active programs per the kit's Round 1 report; free resources for further teaching ideas]

08 Do not cite these (the kit removed or corrected them)

THE ROUND 1 CHECK could not confirm the following, or found them wrong.
Do not repeat them in your assignments or your workshop.

- "Over 80,000 sextortion reports overall" and "a 37 percent rise" attributed to NCMEC (the counts are more than 50,000 in 2025 and more than 36,000 in 2024).
- "1 in 25 teens" as a Thorn figure (Thorn reported 1 in 17; 1 in 25 is a UNICEF figure for some countries).
- "38 victims referred for suicide intervention" as a sextortion statistic (it belongs to a cryptocurrency investment fraud section of the IC3 report).
- The IWF "8,029 images and videos, up 14 percent" framing (the report gives 4,586 AI images and 3,443 AI videos).
- "AI voice scams up 1,200 percent in 2025" and a vendor's "about 200 phishing pages in a week" claim.

- "NSA GenCyber camps run every summer" (NSA announced no 2026 program; confirm any future status) and "SANS CyberStart is open" (it has closed).

09 If you add a reading

ADD IT ONLY IF you can read the primary source. Mark it [VERIFY] until you have. Do not add a source because it says what you hoped it would say.
