

Account Defense

BIG IDEA One reused password is a key that opens many doors. Unique passwords plus a second lock turn a break-in into a dead end.

1 HOOK 2'	2 ACTIVITY 8'	3 DISCUSS 3'	4 TAKEAWAY 2'
-----------	---------------	--------------	---------------

PREP IN 5 MINUTES

Materials: R2 set per group (6 Door Cards, Master Key, 6 Unique Keys, 2 Second Lock Cards, Leak Card, Tally Sheet); Workbook CF-2.

- Bag one R2 set per group.
- Know the round answers: six doors open, one, four.
- Read CF-2 once so you can tell it plainly.

1 HOOK 2 MIN *60-second script* Hackles up? A message saying your account has a problem and you must act now should raise them. Check first. “Riddle. You own it, you cannot see it, thieves want it, and you probably have more than ten. (Accounts.) An account is a locked room with your stuff in it: messages, game progress, photos, friends. The password is the key. Today you find out why one key for every room is a bad deal. And if an account is taken over, the fault belongs to whoever took it.”

- 2 ACTIVITY 8 MIN** *The Key Ring Game*
- (1 min) Read CF-2.** Remy’s login fails and a friend gets a gift-card ask from Remy’s account. Remy used “Tiger123” for the game, email and an old forum that leaked.
 - (4 min) Key Ring Game.** Round 1: one Master Key on all six doors, draw the Leak Card; doors open? (Six.) Round 2: a Unique Key per door. (One.) Round 3: one key again, with Second Lock Cards on Email and Game. (Four; the key doors stay shut.) Tally each.
 - (2 min) Email is the master key.** It resets other accounts, so it gets the strongest lock. A code is a key: nobody who is really helping you asks you to read them a code.
 - (1 min) The Oops plan.** Tell a trusted adult. Use official recovery. New long passphrase. 2-step verification. Warn friends.

- 3 DISCUSS 3 MIN**
- “If you could add a second lock to only two accounts, which, and why?”
 - “Why does a long passphrase beat a short clever password?”
 - “Remy’s account asks friends for gift cards. What should a friend do?” (Pause, do not pay, check another way, tell an adult.)

4 TAKEAWAY 2 MIN “Pause before you reuse. Check: is this key on other doors? Tell: if an account is taken, tell an adult and use the official steps. One key means one leak opens everything. It is never your fault if an account gets taken.”

Hand signal: Hackles Up (hand brushed up the neck, optional), then Pause, Check, Tell. Post it: “One key, one door. Email gets the second lock first.”

EXIT TICKET “One account I will give a new passphrase is _____, and one adult who can help is _____.”

FUN BOOST Lock Draft. After Round 3, each group drafts two accounts for a Second Lock and defends the pick in one sentence. The class votes for the best reasoning, not the loudest.

LEVEL-UP Master Key Hunt. On paper, with account types only, map which account can reset which and circle the master key. Do the Lock Check (Worksheet 2D) with a trusted adult.

- DIFFERENTIATE** Pre-sort Door Cards by importance; use four doors.
- FAMILY CARD** Give the most important account (usually email) a new long passphrase and turn on 2-step verification. Your child will not be punished for telling you about a taken account.

IF A STUDENT TELLS YOU SOMETHING

- Say:** “Thank you for telling me. You did the right thing.”
- “This is not your fault, and you are not in trouble.”
- “I can’t keep this secret. I need to bring in people who can help, and I will tell you who.”
- Do not say:** “Are you sure?” or “Why would you share it?”
- “I won’t tell anyone.”
- Asking to see messages, photos or accounts.

First 10 Minutes: see the Disclosure Guide.

Then: tell your counselor or designated person right away. Follow your school policy and your state’s reporting law.
