IF A STUDENT DISCLOSES

This tracker collects no student data. No child names, no initials, no photos, no ages by child, no identifiers, no quotes from children, no disclosure information, no school names unless the school agrees. It holds counts only. Mentor service logs, screening results and incident forms are stored separately and never enter this tracker.

Reporting

- Report totals to the dean, the advisor and the college's engagement office once a semester.
- Share school-level results with each school as a one-line thank-you ("Your visit reached about [number] children in [number] classes").
- Do not claim outcomes such as "reduced scams" or "prevented harm." Hackles has not been evaluated in a controlled study. Say what you did: events held, people reached, hours served.
- Any statistic you publish must come from this tracker, with the date range, and be marked [VERIFY] until the coordinator checks the arithmetic.
