Poster 1: Pause - Check - Tell

Field note

No. 1

HACKLES UP? (hand brushed up the back of your neck) Something feels off? That uh-oh feeling is a gut check. False alarms are fine.

PAUSE. (flat palm) Stop. Hands off. Take a breath.

CHECK. (magnifier fingers) Does it feel off? Look for SPOT: Secrets, Pressure, Offer too good, Trick to move you.

TELL. (hand on chest) Tell a trusted adult. Keep climbing the Ladder until someone helps.

You are never in trouble for telling. It is never your fault.

[Illustration: Hackle, a baby hedgehog with pale-yellow, tangerine-tipped quills standing up, one paw up like a stop sign, one holding a magnifying glass, and a speech bubble that says "I need help."]

Poster 2: The Help Ladder

Field note

RUNG 3: REPORT IT. Use the report or block button (with a grown-up), or tell the counselor, principal, or a helpline.

RUNG 2: TELL A TRUSTED ADULT. Parent or guardian, teacher, counselor, coach, relative, neighbor.

RUNG 1: TELL A FRIEND YOU TRUST. "Will you come with me to tell a grown-up?"

If a rung does not help, KEEP CLIMBING.

[Illustration: a friendly ladder against a bright wall with the squad climbing it and Hackle at the top.]

P	Pressure	"Hurry!" "Last chance!" "Your account will be deleted!"
O	Offer too good	Free coins, a surprise prize, an easy win.
T	Trick to move you	Click this link, switch apps, buy a gift card.

R-1: The Help Ladder

R-1.1 Ladder Scenario Cards (12 cards; print one set per group)

#	CARD
1	A pop-up in a game says you won a prize and asks for your address. You get a funny feeling. Who do you tell, and what is your first sentence?
2	Someone in a game chat asked you to keep a secret from your family. Which rung do you try first? What do you say?
3	You clicked a link and a strange page opened. You feel worried. What do you say to a grown-up?
4	A classmate sent you a mean message. You feel upset and embarrassed. Who can help, and what will you say?
5	You saw a video you did not mean to see and it made you uncomfortable. How do you tell?
6	A friend told you they got a message that scared them, and asked you not to tell. What do you do?
7	You shared a password with a friend and now your account looks different. What is your first sentence?
8	A player asked where you live. You did not answer. Who do you tell?
9	Someone made an account pretending to be you. Which rung do you try?
10	You are worried about a friend who seems sad because of things online. What can you do?
11	You told a grown-up, but they were too busy to listen. What is your next move?
12	You made a mistake and you feel really embarrassed. What do you say?

Teacher key (do not hand out)

For every card: any trusted adult is a good answer, and the first sentence can be any of the three starters. Cards 6 and 10: Rung 1 friend care, then bring the friend to a trusted adult (Rung 2). Card 11: keep climbing to a different adult (a teacher, counselor or another family member). Cards 4, 9, 5: Rung 2 plus Rung 3 (report or block with a grown-up). Card 12: emphasize "I'm not in trouble. I just need to tell you something."

2

R-1.2 Sentence strips (cut apart)

STRIP

"I need help with something online."

"Something happened and I'm not sure what to do."

"I'm not in trouble. I just need to tell you something."

"Will you come with me to tell a grown-up?" (for a friend)

Good Grown-up Reply: "Thank you for telling me. It is not your fault. Let's figure it out together."

R-1.3 Family Card and Reply Slip (Lesson 1)

Field note

No. 5

Family Card: The Help Ladder. Today your child practiced telling a trusted adult when something online feels wrong. The most helpful thing you can say is: "Thank you for telling me. You are not in trouble." Ask tonight: "Who are your five trusted people? What would you say first?" Stay calm even if the story is upsetting; kids stop telling when adults react with anger.

Spanish-ready line (please have a fluent speaker check it) [VERIFY]:
"Gracias por contarme. No estas en problemas."

REPLY SLIP (CUT AND RETURN)

Student name (optional): _____ We talked about our trusted people. One thing we learned: _____

R-2: Passphrase Lab

R-2.1 Passphrase Word List (36 words)

How to use: roll two dice. The first die is the ROW. The second die is the COLUMN. Write down the word. Roll three times for a practice passphrase. No dice? Use number cards 1-6 or a spinner.

ROW / COLUMN	1	2	3	4	5	6
1	apple	bridge	cloud	drum	eagle	forest
2	garden	harbor	island	jungle	kite	lantern
3	meadow	nickel	orbit	pepper	quilt	river
4	saddle	tunnel	umbrella	violin	walnut	yarn
5	zebra	anchor	button	candle	dragon	engine
6	feather	glacier	hammock	igloo	jigsaw	kettle

Picture 1

ART TO COME

a small picture beside each word, optional, for support.

Reminder (print on the sheet): Practice only! Never use a classroom practice passphrase for a real account. Never share a real passphrase with anyone except your parent or guardian.

R-2.2 Crack-Timer Chart (teacher copy, for the board)

Our pretend Guess-Machine makes 1,000 guesses every second. (Real computers can be much faster, and real passphrases use bigger word lists.)

LOCK	POSSIBLE LOCKS	TIME FOR THE GUESS-MACHINE
1 digit PIN	10	less than 1 second

3

LOCK	POSSIBLE LOCKS	TIME FOR THE GUESS-MACHINE
2 digit PIN	100	0.1 second
4 digit PIN	10,000	10 seconds
1 word	36	0.04 second
2 words	1,296	about 1 second
3 words	46,656	about 47 seconds
4 words	1,679,616	about 28 minutes
5 words	60,466,176	about 17 hours
6 words	2,176,782,336	about 25 days
7 words	78,364,164,096	about 2.5 years

Rule of the lab: each new word makes the lock 36 TIMES bigger.

Extra: With a real dice-word list of 7,776 words, four random words give about 3.66 quadrillion possibilities (7,776 x 7,776 x 7,776 x 7,776) [VERIFY arithmetic and any real-world time claims].

R-2.3 Family Card and Reply Slip (Lesson 2)

TO VERIFY

Family Card: Passphrase Lab. Your child learned that a long, random passphrase beats a short, clever password. Try rolling dice with your child to pick words for a family passphrase. Keep real passwords private. Turn on two-step verification where offered, and consider a password manager [VERIFY any product recommendation with your school policy].

REPLY SLIP (CUT AND RETURN)

We tried it at home. Check one: ☐ We made a new passphrase ☐ We talked about it ☐ We need help.

R-3.1 Scam Sort Cards (36 cards; cut apart; one set per group)

Sort each card onto a mat: SCAM, REAL, or PAUSE-AND-ASK. Write the SPOT letters you see in the corner. (Core lesson: each group sorts a half-deck of 18 cards. Half A is cards 1-18; Half B is cards 19-36. Use all 36 for the Lab Extension.)

R-3.2 Sorting Mats (print three signs, one per mat)

Field note

No. 6

SCAM: has SPOT signs. Do not click, do not answer. Tell a grown-up.
 REAL: normal, from a place or person you know, no SPOT signs.
 PAUSE-AND-ASK: not sure? That is a smart answer. Ask a grown-up.

R-3.3 Family Card and Reply Slip (Lesson 3)

Field note

No. 7

Family Card: Scam Spotters. Your child learned SPOT: Secrets asked, Pressure, Offer too good, Trick to move you. Ask your child to show you the hand signs. If anything feels off, pause together and check by going to the official place yourself. Nothing legitimate asks a child for a password, code or gift card.

REPLY SLIP (CUT AND RETURN)

Chapter

R-4: Cipher Wheel and Codes

R-4.1 The Cipher Wheel (two ways to make it)

OPTION A: PAPER-PLATE OR PAPER CIRCLE WHEEL

Materials: two paper circles (one large, about 18 cm across; one small, about 12 cm across), a brass fastener, a pencil.

1. Pin the small circle on top of the large circle at the centers.
2. Divide each circle into 26 equal wedges. (Fold in half, in half again, and so on, or use a ruler: each wedge is about 13.8 degrees.)
3. On the OUTER ring of the big circle, write the alphabet A to Z around the edge in order.
4. On the INNER (small) circle, write A to Z around the edge in order, so each inner letter is just below an outer letter.
5. Turn the inner circle to set a key. For key 3, turn the inner circle until the inner D sits under the outer A.
6. To ENCODE: find your message letter on the OUTER ring and write the letter touching it on the INNER ring.
7. To DECODE: find the code letter on the INNER ring and write the outer letter.

OPTION B: CIPHER STRIPS (NO BRASS FASTENER NEEDED)

Print the strips below. Cut out the TOP strip (fixed alphabet). Print the BOTTOM strip twice and tape the two copies end to end to make a 52-letter sliding strip.

TOP strip (fixed):

A B C D E F G H I J K L M N O P Q R S T U V W X Y Z

BOTTOM strip (print two copies, tape end to end; slide it):

A B C D E F G H I J K L M N O P Q R S T U V W X Y Z

For key 3: slide the bottom strip until its D sits under the top strip's A.
Encode: find the message letter on top, write the letter below it. Decode:
find the code letter on the bottom strip and read the top letter.

WORKED EXAMPLE (KEY 3)

MESSAGE LETTER	P	A	U	S	E
Code letter	S	D	X	V	H

PAUSE becomes SDXVH.

KEY LOOKUP CHART (USE IF THE WHEEL IS NOT HANDY)

Find the row for your key. Read the 26 letters in order; the first one is what A becomes, the second is what B becomes, and so on.
