THIS WORKBOOK IS YOURS. It is how you build your own **Digital Defense Plan** over ten short lessons. You will use pencil or pen. You do not need an account, a login, or a device.

Three rules for this workbook

- **Never write real passwords, codes, account names, home addresses, or other people's names or private details.** Use roles ("a friend", "an aunt") or made-up examples.
- **Your plan is private.** Your teacher will not read your personal pages unless you choose to share them. What gets looked at is your Teach Card and your short reflections.
- **It is never your fault.** If something has happened to you or someone you know, there are people who can help, and you are not in trouble for telling. See the Help Page at the back.

The routine we use every lesson: Hackles up? · Pause · Check · Tell

- **Hackles up?** Hackles are what rise on the back of your neck when something feels off: too good, too pushy, too secret, too scary. That feeling is information. Trust your instincts enough to notice it, then threat-model it: what is this feeling picking up on? A false alarm is fine. If you missed it or got tricked anyway, it is never your fault; tell someone.
- **Pause:** Notice the pull (hurry, flattery, fear, secrecy). Take one beat before anything you cannot undo.
- **Check:** Confirm using a second channel you chose yourself.
- **Tell:** Bring in a person. Friend, then trusted adult, then a formal report. You can start at any rung.

The Response Drill (for threats and images): STOP · SAVE · TELL · REPORT

The Helper plan (for friends): HEAR · HELP · HAND OFF

My Defense Plan lines (fill in one at the end of each lesson)

Plus lessons (P1 to P4), if your teacher teaches them, each add one optional line: see the Plus Worksheets after the Deep-Dive Case Labs.

My hackles triggers. As you go, jot the moments that made your hackles go up (a rush, flattery, a secret, a threat):

W1. Threat-Model Worksheet (Lesson 1)

The four questions: What matters to me? What could go wrong? How bad and how likely? What is the smallest fix?

PART 1: MY FIVE ASSETS

Circle or write five things that matter to you. Examples: main email, a social account, photos and videos, location and routine, money and game items, school work and records, reputation, friendships and group chats, phone or laptop, health and personal information, creative work, AI chat history.

#	ASSET	WHY IT MATTERS TO ME
1		
2		
3		
4		
5		

PART 2: GROUP GRID (COPY YOUR GROUP'S PLACEMENTS)

For each Threat Card, write its name in the box where your group put it.

	SMALL HARM	BIG HARM
Unlikely		
Likely		

PART 3: MY TOP TWO THREATS AND THE SMALLEST FIX

MY TOP THREATS (FOR MY LIFE)	SMALLEST PROTECTION	WHO COULD HELP ME	COST (TIME / MONEY / HASSLE)
1.			
2.			

PART 4: REFLECT

- A threat I placed differently from someone else in my group:

- Why my threat model might be different from a friend's:

- A threat I decided is not worth worrying about, and why:

Level-Up Challenge (optional): Pre-mortem: imagine it is six months from now and your top asset was compromised. Write the three-line story of what most likely happened and the cheapest fix.

Defense Plan line (DP-1): The thing I most want to protect is _____ and my first move is _____.

W2. Passphrase Builder and Recovery Map (Lesson 2)

PART 1: DICE PASSPHRASE (PRACTICE ONLY, NEVER USE IT)

ROLL A DIE TWICE per word: first roll = row, second roll = column on the Word Table (Reproducibles R2).

WORD	ROW ROLL	COLUMN ROLL	WORD
1			
2			
3			
4			

My dice passphrase (practice): _____

Which would an automated guesser try first: "Fluffy2009!" or my dice passphrase? Why? _____

PART 2: RECOVERY MAP (NO REAL ACCOUNT NAMES OR PASSWORDS)

Draw boxes for your accounts. Draw arrows to show which account can reset which. Then:

- Circle the **single point of failure** (the account or phone number that can reset the most others).
- Put a star next to the account that needs the strongest protection.

(Drawing space)

PART 3: RANK THE DOORS

Rank from weakest (1) to strongest (5):

RANK	OPTION
	(a) Password only
	(b) Password plus a code sent by text
	(c) Password plus a code from an authenticator app
	(d) A passkey or a physical security key
	(e) A password also used on three other sites, plus a code by text

PART 4: REFLECT

- Three questions to ask about any login: Is it **long**? Is it **unique**? Is there a **second door**?
- One account I will upgrade this week: _____
- One thing I will never do with a verification code:

Level-Up Challenge (optional): With an adult, check which of your accounts offer a passkey or authenticator app and plan your first upgrade. Write no codes or passwords.

Defense Plan line (DP-2): My master-key account is _____ and my upgrade is _____.

W3. Case Lab Sheet (Lesson 3)

The **HOOKS**: **H**urry · **O**fficial · **O**ffer or outrage · **K**eep it quiet · **S**trange method

Use one sheet per case (copy as needed). Case cards C1-C8 are in the Reproducibles (R3).

Case number: _____ Title: _____

QUESTION	OUR ANSWER
1. Which HOOKS are present? (circle)	H O O K S
2. What is the ask ? (what do they actually want me to do?)	
3. What is the Check ? (a second channel I choose)	
4. If someone already did it, what are the first two moves? (Lock, Tell, Report)	
5. What sentence would break the hook?	

Fix It moves (reminder).

- **Lock**: change the password from a safe device, sign out other sessions, turn on 2-step verification.
- **Tell**: a trusted adult, so you do not carry it alone.
- **Report**: the platform; your bank or card issuer; reportfraud.ftc.gov [VERIFIED 2026-10-05]; identitytheft.gov if identity details were shared [FTC site; not readable by the checker].

Level-Up Challenge (optional): Choose a family code word and callback rule (do not write the word here), or keep a one-week Hook Diary: note hooks you see without clicking.

Defense Plan line (DP-3): My go-to Check is _____.

W4. Mosaic Map and Settings Checklist (Lesson 4)

PART 1: JORDAN'S MOSAIC

USE JORDAN'S FRAGMENT CARDS (R4). For each inference, write the fragment number that led to it.

WHAT A STRANGER COULD INFER	FRAGMENT(S)
School (or area)	
Daily routine (days and times)	
Approximate home area	
Age or birthday	
Friends and who is connected to Jordan	
When the house might be empty	

PART 2: BREAK THE CHAIN

Which **one** fragment, if removed or changed, breaks the most inferences?
_____ Why? _____

What setting or habit would remove it? _____

PART 3: SETTINGS CHECK (USE THE SETTINGS MOCK-UP, R4)

For each app type, mark the right location setting: **N** = Never, **W** = While using, **A** = Always.

APP TYPE	N / W / A	PRECISE LOCATION NEEDED? (Y/N)
Maps or navigation		
Weather		
A game		
A social app (photos)		
A shopping app		
A fitness app		

Other permissions: Does a flashlight app need **contacts**? ____ Does a game need your **microphone**? ____ Does a photo-editing app need **location**? ____

PART 4: AT-HOME CHECKLIST (DO ONLY WHAT YOU CAN, ONLY ON A DEVICE YOU MAY CHANGE)

- ☐ Location Services: set each app to the lowest setting that works.
- ☐ Turn off location tags on photos in the camera settings (check how in your device's settings) [VERIFY steps vary by device].
- ☐ Check who can see your location on any map feature or "friends" list.
- ☐ Limit ad tracking or reset the advertising ID in privacy settings [VERIFY steps vary by device].
- ☐ Ask a friend to ask before tagging you.
- ☐ Ask a parent or guardian to help with any data-broker opt-outs; many require an adult [VERIFY].

Level-Up Challenge (optional): Write a three-line tagging agreement for your friends and set a 90-day reminder to re-check your location settings.

Defense Plan line (DP-4): One piece I will take out of my mosaic is _____ and my location rule is _____.

W5. Response Drill Sheet (Lesson 5)

THIS WORKSHEET USES A fictional case. Do not write about your own experience here. If something is happening to you, please talk to a trusted adult or use the Help Page.

Pattern markers I underlined in the case: _____

STEP	WHAT ROWAN SHOULD DO	WHAT ROWAN SHOULD NOT DO
STOP		
SAVE (details, not images)		
TELL		
REPORT		

The first sentence of Tell (say it out loud):

"Something happened online and I need help. I am scared, and I do not want to be blamed."

What a trusted adult can say back:

"Thank you for telling me. This is not your fault. We will figure it out together."

My Help Ladder (use roles, not names, if you prefer):

RUNG	WHO
A friend I trust	
An adult at home I would try first	
An adult at school I would try	
A person or place outside (hotline, NCMEC)	

Reminders

- It is never your fault.
- Do not pay. Do not send more. Do not delete the account or the conversation.
- Do not copy, forward, or re-send any nude image of a minor, to anyone, even as "proof."

- Take It Down (takeitdown.ncmec.org) and the NCMEC CyberTipline (report.cybertip.org, 1-800-843-5678) [VERIFIED 2026-10-05: report.cybertip.org].

Level-Up Challenge (optional): Draft three plain sentences a school could send students to explain STOP, SAVE, TELL, REPORT without shame. Use no scenario detail.

Defense Plan line (DP-5): The adult I would tell first is _____ and my first sentence is _____.

W6. Verify Lab (Lesson 6)

The four moves: Pause · Source · Second source · Trace

Claim cards V1-V9 are in the Reproducibles (R6). Complete one row per card. For a harmful or false claim that is spreading, add a move: **Report** it in the app and tell an adult.

CARD	FIRST MOVE I WOULD USE	GOOD EVIDENCE WOULD BE	MY CONFIDENCE (PROBABLY REAL / PROBABLY FAKE / DO NOT KNOW YET)	WHAT I DO NOW (SHARE / DO NOT SHARE / REPORT / TELL)
V1				
V2				
V3				
V4				
V5				
V6				
V7				
V8				
V9				

Remember. "Looks real" is not proof. "Cannot prove it is fake" is not proof it is real. If media sexualizes or humiliates a person, do not forward it. Use STOP · SAVE · TELL · REPORT.

My family code word or callback rule (do not write the actual word here):

Level-Up Challenge (optional): In two paragraphs, explain why a real recording can be dismissed as fake and what provenance tools can and cannot do.

Defense Plan line (DP-6): My verification habit is _____ and my family code word or callback rule is _____.

W7. Line-Up Notes and Boundary Sentence (Lesson 7)

THIS PAGE IS ABOUT patterns, not about anyone's real life. Statements are in the Reproducibles (R7).

S1			
S2			
S3			
S4			
S5

Consent is freely given, specific, ongoing, and can be withdrawn. Pressure, threats, and guilt are not consent.

Signs of digital control I noticed: _____

My boundary sentences (pick or write):

- "I'm not comfortable with that. I'm saying no."
- "I need privacy on my phone. That is not about you."
- My own: _____

Help Map. Fill in the people and places I would use:

RUNG	WHO OR WHERE
A friend	
A trusted adult at home	
A trusted adult at school (counselor, coach, teacher)	
A hotline (see the Help Page)	

Level-Up Challenge (optional): Write one boundary sentence three ways: light, firm, and serious. Then trade with a neighbor.

Defense Plan line (DP-7): My boundary sentence is _____ and the person or place I would Tell is _____.

W8. Helper Notes (Lesson 8)

HEAR · HELP · HAND OFF

The Escalation Ladder

- **Green** (stress, a fight, a rough day): listen, check in later.
- **Amber** (threats, blackmail, harassment, controlling behavior, an image shared without consent): bring in an adult within 24 hours; use the Response Drill.
- **Red** (talk of self-harm or suicide, immediate danger, abuse, a weapon): tell an adult now; call or text 988 or call 911 [VERIFIED 2026-10-05: 988lifeline.org].

MY ROLE-PLAY NOTES

OBSERVER CHECKLIST (WHEN I AM THE OBSERVER)

- ☐ The Helper said thank you for telling me.
- ☐ The Helper said it is not your fault.
- ☐ The Helper avoided blame questions ("why did you...").

Three things I do to reset after a heavy conversation: _____

The person I can talk to: _____

Level-Up Challenge (optional): Write your Hand-off sentence as a text, as something you say in person, and as a note.

Defense Plan line (DP-8): My Hand off adult is _____ and my sentence is _____.

W9. Permission Test and My Next Step (Lesson 9)

The Permission Test: Permission · Scope · Harm · Tell

PART 1: SORT THE SCENARIOS

- **Pattern** (what it looks like): _____
- **Pause** (what to notice): _____
- **Check** (what to do): _____

Reflection Journal (one short entry after each lesson, optional to share)

LESSON	PROMPT	MY REFLECTION
1	What is one thing I now see differently about "being careful"?	
2	What stops me from using unique passwords, and what would help?	
3	Which hook is hardest for me to resist, and what is my sentence?	
4	What would I be willing to change about how I share places?	
5	Who would I want to tell, and what would make telling easier?	
6	When have I shared something before checking, and what would I do now?	
7	What does respect look like, in my own words?	
8	What kind of friend do I want to be when someone needs help?	
9	What interests me about security, and what is one first step?	
10	What is one thing I will do differently starting this week?	

Deep-Dive Case Labs (extended-block, homework, or a security club; defense only)

ALL CASES ARE MADE UP. They teach recognition and response. Never write real names or details.

CASE LAB 1: THE TAKEOVER

Imani (16) gets a text at 9:10 p.m.: a verification code she did not ask for. She ignores it. At 9:40, a friend gets a message from Imani's account: "Can you vote for me in this contest? Here is the link." At 7:00 a.m., Imani cannot log in. The recovery email on the account has been changed.

- (1) Which was the **first signal**? Which was the **second**?
- (2) Which account was probably the **master key**? Why does that matter?
- (3) Put these in the best order, and add any you would add: tell a trusted adult; contact the platform's recovery process from the official app or site; change the password on a safe device; sign out other sessions; tell friends by another channel that the account was compromised; report to the platform; check other accounts that used the same password.
- (4) Write the message Imani sends to friends by another channel (two sentences, no blame).
- (5) Which prevention would have helped most: unique passwords, a passkey, an authenticator app, or a recovery plan? Why?

CASE LAB 2: THE GROUP CHAT

A group chat shares photos from a birthday outing. One photo shows five friends, a recognizable corner store, and a bus number. A friend reposts it to a bigger group with names and the location. Taylor asks that it be taken down. People joke "it is funny" and keep it up. Later, someone in the bigger group says they know "where Taylor gets off the bus."

- (1) What **mosaic pieces** does the photo and post reveal?
- (2) What is one sentence Taylor can say to ask for removal? What is one sentence an upstander can say?
- (3) When does this move from "annoying" to "Amber" on the Escalation Ladder? What would make it Red?
- (4) Walk through the Response Drill for Taylor (STOP, SAVE, TELL, REPORT), using details, not images.
- (5) Who are the trusted adults and the formal reports? (Use roles.)

CASE LAB 3: THE CLIP

An 8-second video appears on a short-video app. It appears to show a school official saying something offensive. It spreads fast. The account that posted it was made yesterday. A friend says, "It is obviously real."

- (1) Apply the four moves (Pause, Source, Second source, Trace). What would you look for at each?
- (2) What do you know? What do you not know? Give your confidence rating.
- (3) If it is fake, who is harmed? If it is real, what changes?
- (4) What would you say to the friend, and to the group chat?
- (5) When does this become something to report or tell an adult, even if it is not clear whether it is real?

CASE LAB 4: THE FOUND FLAW

You are using a library's online booking page for a study room. After you book, the confirmation page accidentally shows other patrons' names and phone numbers.

- (1) Apply the Permission Test (P, S, H, T). What is the right category: Green, Yellow, or Red? Why?
- (2) What should you do right now? What should you not do (copy, post, test further, tell only friends)?
- (3) Draft a plain message to the library (what you saw, that you did not save or share anything, how they can reach you).
- (4) Who is the right person to tell if you are not sure where to send it?
- (5) Why does it matter that you stayed within what you saw by accident?

Plus Worksheets (Plus Lessons P1 to P4)

YOUR TEACHER MAY GIVE you these extra lessons. They follow the same routine as the other ten. Each adds one optional line to your Defense Plan.

PLUS LESSON	MY LINE	DONE
P1. Recruitment Online	If something online asks me to keep a secret, owe a favor or hand over a document, I will _____ and tell _____	[]
P2. Mind, Mood, and the Scroll	My well-being setting is _____ and the person I would check in with is _____	[]
P3. Whose Goal Is It?	The two settings I will change this week are _____ and _____	[]
P4. From Mean to Harmful	My first move when something is TELL NOW is _____ and I would tell _____	[]

W-P1. Pattern Match (Plus Lesson P1)

This worksheet uses **fictional** messages. Do not write about your own experience here. If something is happening to you or someone you know, please talk to a trusted adult or use the Help Page. Nobody plays the recruiter or the person being controlled.

The Pattern Strip: **HOOK** (flattery, an opportunity, a "special" relationship) · **MOVE** (a private app, a call, a meeting alone, travel) · **BIND** (secrecy, a favor that becomes a debt, shame, a fee, a threat to tell your family) · **CONTROL** (someone holds your money, phone, documents or accounts, or you are cut off from people).

- Evidence: words, usernames, links and dates are fine to save. Never save, send or show an intimate picture of anyone under 18.

Reminders

- It is never your fault. Reporting is not tattling.
- A real offer can stand being talked about.

Level-Up Challenge (optional): Draft a "Check an Offer" card for a younger sibling (no real cases, no scenario detail).

Defense Plan line (DP-P1): If something online asks me to keep a secret, owe a favor or hand over a document, I will _____ and tell _____.

W-P2. Impact Map (Plus Lesson P2)

Use **fictional** vignettes only. Do not write your own hours, habits or feelings here. If something is bothering you, talk to a trusted adult or use the Help Page.

Words to know. *Social comparison*: measuring yourself against other people's posts. *Push notification*: an alert an app sends about activity on your account. *Addiction*: a word some people use for use that feels impossible to cut down even though it is causing harm; a doctor or counselor decides whether someone has a health condition. *Reward and the brain*: dopamine helps you notice and want things that feel rewarding; apps are built so that likes, comments and alerts can feel rewarding at unpredictable times; scientists are still learning how strong this is for different people.

My domain (circle): **Sleep · Mood and self-image · Relationships · Attention and control**
