Your Digital Defense Plan: Teacher-Only Answer Guide

A free kit by Competence Collective · competencecollective.org · quillsup.org · © 2026 Competence Collective. Lesson text and teaching materials: CC BY-NC 4.0 (free to print, share and adapt for non-commercial use with credit). The Hackles name, logos, characters and artwork are not covered by that license: print and share them unaltered for classroom and family use; any other use needs written permission. [VERIFY with counsel]

Teacher-only: do not copy this file for students. Answers are guides, not scripts. Many items accept more than one defensible answer. Reward reasoning.

W1. Threat-Model Worksheet

- **No single correct grid.** Expect most groups to place account takeover and scam messages near "likely", and pressure or blackmail, AI fakes, and a data breach near "big harm". Accept any placement with a clear reason.
- **Strong "smallest fix" answers** are specific and doable: "unique passphrase and a passkey for my email", "turn off precise location for two apps", "agree on a callback rule with family", "ask before tagging". Weak answers are vague ("be more careful") or unrealistic ("delete everything").
- **Persona note.** A teen with a public following needs more attention to impersonation, harassment, and location; a teen sharing a family phone may prioritize who can see messages and reset accounts; a teen in a controlling situation may prioritize safe devices and Tell.

W2. Passphrase Builder and Recovery Map

- **Rank the doors** (weakest to strongest): (e) 1, (a) 2, (b) 3, (c) 4, (d) 5. The order of (e) and (a) is debatable; accept a reasoned alternative. Note: the gap between (b) and (c) is about interception and phishing of texted codes; CISA says SMS or voice codes should only be used as a last resort, and that FIDO/WebAuthn is the only widely available phishing-resistant option [VERIFIED 2026-10-05: CISA fact sheet].
- **36-word table caveat.** The classroom table has 36 words, so a 4-word phrase has about 1.7 million possibilities (weak). A 7,776-word list gives about 3.7 quadrillion [RECOMPUTED 2026-10-05: $7,776^4 = 3,656,158,440,062,976$]. The table is for practice only.

- **"Fluffy2009!" versus dice passphrase.** The first follows a pattern automated guessers try early (a word, a year, a symbol); the dice phrase has no pattern and is longer.
- **Recovery map.** Most students will circle email or the phone number as the point of failure. Prompt: "If someone owned that, what else would they reach?" The strongest-protection star should be on email (or whichever account resets others).
- **Never accept** a real password or code on the page.

W3. Case Lab Answer Guide (Case Cards C1-C8)

CASE	HOOKS	THE ASK	THE CHECK	FIX IT IF ALREADY DONE
C1 Account locked text	H, O, S	Click a link and enter login and a code	Open the app or site yourself; real companies do not need codes by text reply	Lock (change password, sign out sessions, 2-step), Tell, Report to platform
C2 Friend needs a code	H, O, S (K soft)	Read a code sent to your phone to a "friend"	Contact the friend another way; a code sent to you belongs to you only	Lock the account whose code was sent, tell the friend by another channel their account is hacked, Report
C3 Easy money job	O, K, S, H	Move money through your own account and forward it	Real jobs do not use your personal account to move money; ask a trusted adult; search the offer	Stop, Tell, contact the bank, Report to FTC or law enforcement. Teaching point: moving money for someone else can be a crime even if you were told it was a job [VERIFY]
C4 Scholarship fee	O, H, S	Pay a fee by gift card	Real scholarships do not charge a fee to receive money; check with a counselor or the real organization	Contact the card issuer, Tell, Report to FTC
C5 Cousin in trouble	H, O (familiar voice), K, S	Send money fast and tell no one	Hang up; call the cousin on a saved number; family code word; voices can be cloned from short clips [VERIFY]	Contact bank or payment app, Tell, Report
C6 Ticket deal	O, H, S	Pay first by a payment method with no protection	Use official resale or a protected payment method; walk away if pressured on payment type	Contact payment provider, Tell, Report to platform and FTC
C7 Free currency giveaway	O, H, O (familiar), S	Log in via a link with your game account	Open the official store yourself; giveaways never need your password	Lock, Tell, Report to platform
C8 School IT notice	O (authority), H, S	Confirm current password via a link	Go to the school portal directly or ask IT in person; IT will not ask for your current password by email	Lock, Tell IT and an adult, Report as phishing

Common hook counts: Hurry and Strange method appear in all eight; Keep it quiet appears in C3, C5, and sometimes C2. If a group says "none" for Keep

it quiet on C1, prompt with "what would the sender gain if you did not tell anyone?".

W4. Mosaic Map and Settings Checklist

Jordan's Fragment Cards (R4):

FRAGMENT	INFERENCE
F1 Team photo with mascot jersey and partial school sign	School or area
F2 Public fitness route that starts and ends at the same corner each morning around 6:30	Home area; routine
F3 Photo of a new bike in front of a blue door with part of a house number and street sign	Home area, possibly the exact house
F4 "Sweet sixteen today" with the date	Age and birthday
F5 Friend's tagged story "same spot after practice Tue and Thu, 5 pm" at a park	Routine; a predictable place and time
F6 A public comment "see you at the bus stop on Elm"	Route to school and a place and time
F7 Story "leaving for the beach tomorrow, gone all week" with live location	When the house is empty
F8 Original photo file of the dog with location data embedded	Exact home location

- **Which single removal breaks the most?** There is no single answer; common strong picks are F2 (the route reveals home and routine), F3 (reveals the house), F8 (exact location), or F7 (reveals an empty house in real time). Reward the reasoning and a matching fix (privacy zone, remove house number and street sign from photos, turn off location tags, post after returning).
- **Settings check.** Reasonable answers: Maps (While using; precise yes), Weather (While using or Never; approximate fine), Game (Never or While using; precise no), Social photos (Never or While using; precise no), Shopping (Never; precise no), Fitness (While using; precise often needed; use privacy zones). Flashlight app needs contacts? No. Game needs microphone? Only if it has voice chat and you choose to use it. Photo editor needs location? No.
- **Data brokers.** Accept answers about adult help with opt-outs; check [VERIFY] any specific state-law claim before confirming.

W5. Response Drill Sheet (Rowan and Riley)

- **Pattern markers:** fast closeness and flattery; a push to move to a different, private app; "you first" or "I will send one if you do"; sudden change of tone; a deadline; a payment demand in gift cards or similar; a threat to share with followers and school; "do not tell anyone."
- **STOP:** stop replying; do not pay (payment usually leads to more demands) [FBI and NCMEC; VERIFY]; do not send more; do not delete the

account or the conversation. **Should not:** negotiate, try to "out-trick" the person, delete everything, or send "proof."

- **SAVE:** the username and profile link; threatening and payment-demand messages; dates and times; the payment method named. **Should not:** copy, forward, or re-send any nude image of a minor, even as proof.
- **TELL:** a trusted adult tonight, using the first sentence. If one adult reacts badly, try another.
- **REPORT:** the platform; NCMEC CyberTipline; Take It Down for images made when under 18; with an adult, local law enforcement or the FBI. **Should not:** wait until the deadline.
- **Marking tip:** Accept answers in the student's own words. Full marks require the "details, not images" distinction and a named Tell rung.

W6. Verify Lab Answer Guide (Claim Cards V1-V9)

CARD	FIRST MOVE	GOOD EVIDENCE	CONFIDENCE	ACTION
V1 Audio of the principal announcing closure	Source	The school's official channels or a call to the office	Do not know yet	Do not share until confirmed
V2 Crypto giveaway video with a public figure	Source, then Trace	The public figure's verified channels; the "send one, get two" pattern is a scam pattern	Probably fake or a scam	Do not share; report to the platform
V3 Dramatic local flood photo	Trace	Reverse image search or local news confirming time and place	Do not know yet	Hold until traced
V4 8-second video of a political figure saying something shocking	Pause, then Second source	A full-length source and reliable coverage	Do not know yet	Do not share
V5 Anonymous screenshot of a "private chat"	Source	The original conversation, which is not available	Do not know yet; screenshots are easy to edit	Do not share; the harm is real either way; Tell if a person is targeted
V6 AI chatbot statistic and a "study" you cannot find	Trace	The actual study in a reliable source	Do not know yet; likely invented or misquoted	Do not cite until verified
V7 Voicemail from a relative asking for money, do not tell parents	Check	Call back on a saved number; family code word	Treat as a scam until confirmed	Do not send money; Tell
V8 Image of a classmate that looks like a sexual image	Not "is it real?"	It is harmful whether or not it is real	Not the main question	Do not forward; STOP, SAVE details (not the image), TELL, REPORT per Lesson 5
V9 Chart "Teen screen time is up 300%!" with an unlabeled axis and a source of "a survey"	Source, then Second source (the data check)	Who ran the survey, when, how many people, what the axis measures and where the scale starts; a second independent source	Do not know yet	Do not share until the source and the scale are clear; if it spreads as fact, report it in the app and tell an adult

Key teaching points. "Do not know yet" is a valid and strong answer. For V7 and V8, the correct behaviors are call-back and code word (V7) and no forwarding with the Response Drill (V8).

W7. Line-Up Answer Guide (Statements S1-S8)

STATEMENT	TEACHER VIEW	REASON
S1 Location sharing by mutual choice, either can turn off any time	Green	Chosen and easy to exit
S2 They check my phone every night "because they love me"	Red	Monitoring is control regardless of the reason
S3 We swapped passwords to show trust	Yellow	Trust is not proven by access; can you say no or change it without a fight?
S4 Threat to leave and tell people if no photo	Red	Pressure and threats are not consent
S5 Asked to delete a photo and they did	Green	Respecting a request
S6 Posted a private chat in the group to embarrass me	Red	Sharing private messages to humiliate is abuse
S7 Friend angry if no reply within minutes; says other friends are "a problem"	Red or Yellow	Isolation and demanding availability
S8 Relative checks location; agreed on when	Yellow	Transparent and agreed; depends on whether it can be discussed and adjusted

ACCEPT "IT DEPENDS" ANSWERS when the student names what it depends on (choice, ability to say no, transparency, mutuality, safety).

W8. Helper Role-Play Answer Guide (Cards F1-F6)

CARD	LEVEL	HEAR	HELP	HAND OFF
F1 Photo and a threat from a game chat contact	Amber	"Thank you for telling me. This is not your fault."	Do not pay; help save details (not images); help report	Go with them to a trusted adult tonight; use the Response Drill
F2 "I do not want to be here anymore"	Red	"I am really glad you told me. I care about you." Ask directly: "Are you thinking about hurting yourself?"	Stay with them; do not discuss methods	Bring in an adult now; call or text 988 or 911; do not keep it secret [VERIFIED 2026-10-05: official sites of the named services]
F3 Partner took phone, "do not tell anyone"	Amber	"That sounds scary and it is not okay."	Offer to go with them; avoid confronting the partner	Bring in a counselor or trusted adult; consider loveisrespect
F4 A fake of me is in a group chat	Amber	"This is abuse, and it is not your fault."	Do not forward; save details, not images	Hand off to a trusted adult and report; Response Drill
F5 Group chat is piling on me	Green or Amber	"That sounds awful."	Offer to save details and report; step away	Tell an adult if it continues or threats appear
F6 Clicked a link and entered a password	Green	"Thanks for telling me, this is fixable."	Help Lock: change password from a safe device, sign out sessions, 2-step	Tell a trusted adult; they may be less upset than expected

Observer note. The Hand off sentence must say who and when, and offer to go along ("I will go with you").

W9. Permission Test Answer Guide (Scenario Cards P1-P10)

CARD	CATEGORY	DECIDING LETTER	NOTES
P1 Official beginner practice competition	Green	P and S	Designated targets built for practice
P2 Company with a disclosure program and safe harbor	Yellow, then Green	S and T	Read the rules; stay in scope; report privately
P3 Guessing an ex's password "to test"	Red	P	Not your account
P4 School portal shows another student's information	Yellow	H and T	Stop; do not save or share; tell a trusted adult or tech contact
P5 Friend offers to "recover" an ex's account	Red	P	No permission
P6 Testing your own home devices' settings	Green	P	Your own
P7 Game exploit for free items	Red	P and H	No permission and malware risk
P8 Paid "easy tasks" getting into accounts	Red	P and H	Recruitment into crime; tell a trusted adult
P9 Written school permission for a safe awareness activity	Green or Yellow	S	"Written" and "scope" matter
P10 Unlocked shared document with sensitive information	Yellow	H and T	Close it; do not share; tell the owner or a teacher

Legal points (general, not legal advice) [VERIFY]. Unauthorized access can violate the CFAA and state laws; minors can face consequences; "I did not cause any damage" is not a safe defense; the DOJ's 2022 policy on good-faith security research is a charging policy, not a law [VERIFIED 2026-10-05: justice.gov Justice Manual 9-48.000].

Deep-Dive Case Labs: Answer Guide

Case Lab 1: The Takeover

(1) First signal: the unexpected verification code. Second: a message from "Imani" to a friend with a link.

(2) Probably email or phone number; whoever controls it controls resets. Recovery email changed.

(3) Suggested order: change the password on a safe device and sign out other sessions (if still possible); contact the platform's recovery from the official app; tell a trusted adult; tell friends by another channel; report to the platform; change reused passwords elsewhere. Accept reasoned alternatives, but "tell friends so they do not click" should be early.

(4) Sample message: "My account was hacked, so please do not click any links from it. I am fixing it now." No blame.

(5) Passkey or authenticator app plus unique passwords would help most; a recovery plan helps afterward.

Case Lab 2: The Group Chat

(1) Names and faces, a recognizable store, a bus number, the group's makeup, the time.

(2) Taylor: "Please take that down; I am not okay with my location being shared." Upstander: "Let us take it down, it is not funny."

(3) Amber when someone shows they know where Taylor is; Red if there are threats, stalking, or a physical-safety concern.

(4) STOP engaging; SAVE details (usernames, screenshots of the threat, dates) but not private images; TELL a trusted adult; REPORT to the platform and, with an adult, to law enforcement if threats.

(5) Roles: a friend, a family adult, a school counselor or administrator, the platform, and law enforcement.

Case Lab 3: The Clip

(1) Pause; Source (an account made yesterday is a signal); Second source (any reliable outlet or the school); Trace (the full video).

(2) Known: it is circulating and the account is new. Unknown: whether it is real. Confidence: do not know yet.

(3) If fake: the school official and the community are harmed; if real: the situation needs a real response. Either way, harm from rapid sharing is real.

(4) "I am not sure it is real, so I am not sharing it. Let us wait for a source."

(5) Report if it is harassing or defaming a person, spreading widely, or being used to threaten.

Case Lab 4: The Found Flaw

(1) Yellow: you found it by accident; stop and tell. Permission test: you did not have permission to look at others' data, but you did not seek it; the right action is to stop and report.

(2) Do: stop, close the page, report privately. Do not: save, screenshot, post, test further, or tell only friends.

(3) Sample: "I used the booking page today and noticed the confirmation page showed other patrons' names and phone numbers. I did not save or share anything. Please contact me at ____ if you need details."

(4) A librarian, a teacher, or a trusted adult; the library's staff or tech contact.

(5) Staying within what was seen by accident keeps you inside the Permission Test and makes your report credible.

W-P1. Pattern Match Answer Guide (Plus Lesson P1; specialist review required)

EXCERPT	STAGE	WORDS THAT GIVE IT AWAY	CALL
E1 casting offer	HOOK (and MOVE)	"exactly the look we want," "no experience needed," "message me on a different app"	YELLOW. Unknown sender, flattery, a push to move. Check with a trusted adult first.
E2 school internship	none	Named staff member, the school's own page, families welcome to call	GREEN. Still check the page yourself.
E3 "you owe me"	BIND (debt)	"you owe me," "pay it back by working for me"	RED
E4 "give me your phone and ID"	CONTROL	"I will hold them," "get them back when your shift is done"	RED
E5 uncle's friend's crew	none	Parent already talked to him, he met the family, pay in writing	GREEN. A real offer can stand being talked about.
E6 "do not tell your mom"	BIND (secrecy)	"do not tell," "she will ruin it for you"	RED
E7 "you do not need those friends"	CONTROL (cut off)	"you do not need those friends," "stick with me"	RED
E8 "I will tell everyone what you owe"	BIND (threat; also CONTROL)	"if you leave now," "tell everyone," "where you live"	RED

- Accept YELLOW or RED for E1 with a reason. If a group marks E2 or E5 RED, ask what would make them look safer; the point is discernment, not fear.
- **Helper Card:** Hear: thanks, no blame. Help: "It is not your fault," then ask what the friend needs. Hand off: a named adult, together. Marking tip: full marks need all three, and no question that sounds like "why did you agree?"
- **Reporting:** a trusted adult first; Florida Human Trafficking Hotline 1-855-FLA-SAFE; National Human Trafficking Hotline 1-888-373-7888; Florida Abuse Hotline 1-800-962-2873 for a child who may be abused or neglected; 911 for danger. Evidence: words, usernames, links, dates; never an intimate picture of anyone under 18.
- **Alternate (RP1-ALT, Noor):** HOOK (big pay), BIND (secrecy), and a request for ID and a bank login. RED. A real employer does not ask for your bank login to "set up payroll" before you are hired and does not ask

for secrecy. Report to the platform; a trusted adult can contact the bank if anything was sent.

- **DP-P1:** personal; do not collect or grade. Check for a named adult or place.

W-P2. Impact Map Answer Guide (Plus Lesson P2; clinician or counselor review required)

ALL ANSWERS ARE DISCUSSION aids. Accept reasonable alternatives. Do not collect the Two-Week Experiment card.

VIGNETTE	EFFECT	MAKES IT WORSE	AN ADJUSTMENT	SIGNAL AND WHO
Sleep (Elena)	Late nights, daytime sleepiness, short temper	Autoplay, no stopping point, notifications at night	Phone charges outside the bedroom; autoplay off; a set bedtime for the device	Tiredness that keeps up for weeks or affects school: talk to a parent, a doctor or the counselor
Mood and self-image (Theo)	Feels worse about body and life; pulls away from friends	Comparison with polished posts, hours of use, muted friends	Unfollow accounts that leave him feeling worse; time-box the app; message one friend	He "stops replying and says nothing will get better": GET HELP TODAY. A trusted adult and the counselor now; call or text 988.
Relationships (Jules)	Hurt by exclusion; checks the chat all night	Being left out on purpose (a form of cyberbullying), constant checking	Mute the old chat at night; talk to a friend face to face; tell the counselor about the second chat	Exclusion that repeats, or that feels like a pile-on: tell a trusted adult and use the P4 questions
Attention and control (Kai)	Constant checking; cannot cut down; restless without the phone; skipped something he enjoys	Notifications, variable rewards, habit	Check at set times; phone in another room during homework; one app-free evening	Cutting down fails repeatedly, or he drops things he loves: talk to a parent, the counselor or a doctor. A professional decides whether it is a health condition.

- **Group share-out:** sleep, mood, comparison, belonging and control affect each other (poor sleep lowers mood; low mood makes comparison hurt more).
- **Community question (Q6):** accept answers such as a team no-phones-at-night agreement, a group chat quiet hour, a school with no notifications in class.
- **Never accept** a diagnosis ("Kai is addicted") as a final answer. Redirect: "What would a doctor or counselor decide? What can Kai try now?"
- **Disclosure reminder:** read exit tickets the same day; a card with a check-in box gets a private follow-up.

W-P3. Feature X-Ray Answer Guide (Plus Lesson P3)

FEATURE	WHAT IT DOES	WHAT IT WANTS	WHO BENEFITS	COUNTER-MOVE
Infinite scroll	Removes the natural stopping point	Keep going	The platform (time on the app)	A timer or a stopping rule
Autoplay	Starts the next video for you	Keep watching	The platform	Turn autoplay off
Push notifications	Alerts about activity on your account	Open the app now	The platform	Turn off nonessential alerts; schedule check times
Public reaction counts	Shows totals of likes and shares	Compare, seek approval, post what gets counts	The platform and popular creators	Hide counts if possible; follow fewer accounts that leave you feeling worse
Streaks	Counts days in a row, with reminders	Return daily to avoid losing it	The platform	Agree with a friend to pause the streak
Live streaming	"Live now" banners and badges	Join in real time	The platform and the streamer	Mute live alerts; join on purpose
"For You" recommendations	Learns what you react to and shows more of it	Stay and see more	The platform (ad exposure)	Curate follows, "not interested," search on purpose

- **Feed Sorter debrief:** by Round 2 most pairs see mostly the theme they liked. "Who chose?" is shared: the pair chose the first likes, the design chose to narrow. The polished post (F1) shows unrealistic portrayals that can create pressure to conform or consume; the ad (G2, F5) shows messages aimed at a specific audience.
- **Discuss Q3 (reaction counts):** people may post for the count, and counts can make comparison easier.
- **DP-P3 and My Autonomy Settings:** personal; do not collect or grade. Check that two real settings are named.
- Statements about how much any feature affects any person are [VERIFY]; keep claims modest.

W-P4. Situation Card Answer Guide (Plus Lesson P4)

CARD	QUESTIONS	METER	FIRST MOVES
S1 Repeated nickname in group chat	Repeated, Public (group)	HURTING	Pause and do not join in; support the classmate privately; tell a trusted adult; report in the app if it continues
S2 "Joke" account about a classmate	Repeated, Hurtful, Public, often Power	HURTING (heading to TELL NOW if threats or private information appear)	SAVE words and usernames; report in the app; support privately; tell a trusted adult; report at school
S3 Embarrassing chat screenshot passed on	Hurtful, Public, spreads private information	HURTING	Do not forward; SAVE only the words; report in the app; tell a trusted adult
S4 Fake profile	Repeated or Hurtful, Public, Power	HURTING to TELL NOW	SAVE the username and link; report the profile in the app; tell a trusted adult; report at school
S5 Left out again	Repeated, Hurtful (exclusion), Power	HURTING	Support privately; tell a trusted adult or the counselor; take a break
S6 One rude comment, no pattern	Maybe Hurtful only	ANNOYING	Pause, do not retaliate; block or mute; report in the app if you want. Not every rude comment is bullying. Over-labeling is a miss.
S7 "I will find you after school"	Hurtful, Power	TELL NOW	Tell a trusted adult now; SAVE the message; report at school; law enforcement through an adult; 911 if in danger. Tell first, block with an adult's help, delete nothing.
S8 Intimate picture passed around	Hurtful, Public	TELL NOW	Do not save, forward or show anyone. Save only surrounding words. Tell a trusted adult now. Use the Response Drill from Lesson 5. The adult reports in the app and to NCMEC or law enforcement. [COUNSEL TO CONFIRM]

- **Three-case evidence rule:** check that students put S3's screenshot in case 1 only if it is words; S8 is case 2; "not sure" is case 3.
- **Do not respond:** with a stranger, a scammer, a suspected predator or a threatener, do not reply. In a peer group chat, do not retaliate or pile on; leaving the chat or a private message to the target is allowed (Crosswalk Section 10, D3).
- **Marking tip:** full marks need a first move that includes Tell and no retaliation. A target should never be told to "just ignore it."
- **DP-P4:** personal; do not collect or grade.

Capstone scoring reference

SEE THE CAPSTONE RUBRIC in the Reproducibles (R10). Score the Teach Card and observed teach-back, not the private plan.
