Every item draws only on content in the Hackles kit (Teacher Academy modules, Concepts Lab, Facilitator Kit, Disclosure and Incident Guide, Assessment Pack and the Round 1 verification report). Each item carries a kit source line so a reviewer can check it. Items that depend on a law or a statistic are marked [VERIFY] or [COUNSEL TO CONFIRM] in the text and carry `contains_verify_flag = yes` in the CSV. No item claims that Hackles is evaluated, effective or approved.

How to use this bank

- 150 items: multiple choice (MC) and scenario-based multiple choice (SCN). One correct answer each; options are shuffled with a fixed seed so the letters are stable.
- Tagged by Academy module (M1 to M8) and by cognitive level (Remember, Understand, Apply, Analyze, Evaluate).
- The 8 module quizzes in the LMS shell draw 10 items each from this bank. Use the rest as retakes, practice sets or exam questions.
- Known limit: the correct option tends to be the longest in many items. Before high-stakes use, have a colleague review and balance option lengths. No item has been field-tested or psychometrically analyzed.
- Use these items for learning, not to certify anyone as competent or to claim any approval.

M1: Why This Matters

HCQ-M1-01 (Remember, MC)

Which set of four features does Module 1 say shows up across the seven risk families?

- A. Passwords, updates, backups and filters
- B. Speed, volume, cost and location
- C. Strangers, screens, games and money
- D. Pressure, secrecy, a request, and a move somewhere more private

Answer: **D.** The kit teaches the pattern, not the app. Pressure, secrecy, a request and a move somewhere more private recur whether the setting is a game, a chat or a feed. *Source: Academy Module 1, Part 1 (The thread that connects them).*

HCQ-M1-02 (Remember, MC)

What is the Hackles routine?

- A. Hackles up? Pause. Check. Tell.
- B. Look. Listen. Learn.
- C. Block. Delete. Forget.
- D. Stop. Drop. Roll.

Answer: **A.** Notice the feeling, do nothing yet, check whether it is real and who is asking, then tell a trusted adult. *Source: Academy Overview; Module 1, Part 4.*

HCQ-M1-03 (Understand, MC)

Why does Module 1 say the old 'stranger danger' slogan is not enough online?

- A. Strangers are never a danger to children online
- B. Only adults who are strangers can cause online harm

- C. Much online harm starts with accounts that look like peers or people a child half-knows, so children need to notice pressure, secrecy and requests whoever is asking
- D. Children cannot tell who is a stranger, so they should avoid all online contact

Answer: **C.** The skill taught is noticing the pattern and telling. The slogan misses accounts that seem friendly and familiar. *Source: Academy Module 1, 'A word about stranger danger'.*

HCQ-M1-04 (Remember, MC)

Which figure did Module 1 report for NCMEC's 2025 count of financially motivated sextortion reports?

- A. More than 500,000, up from more than 360,000
- B. More than 5,000, up from more than 3,600
- C. About 80,000, a rise of 37 percent
- D. More than 50,000, up from more than 36,000 the year before

Answer: **D.** These are the counts verified on NCMEC's own page. The 80,000 and 37 percent figures could not be found on the primary pages and were removed from the kit. *Source: Academy Module 1, Calm Fact 2; Fact-Check Report Round 1, items 4.1 to 4.4.*

HCQ-M1-05 (Apply, SCN)

A colleague drafting a newsletter wants to write 'sextortion reports rose 37 percent.' What is the best advice?

- A. Give the counts from NCMEC's page (more than 50,000 in 2025, more than 36,000 in 2024) and avoid a percentage the primary pages do not state
- B. Keep 37 percent because several news sites use it
- C. Round the rise up to 40 percent so it has impact
- D. Drop all numbers and say reports are 'exploding'

Answer: **A.** The kit's check found the 37 percent figure only in snippets, and the counts imply about 39 percent. Quote the counts from the primary source. *Source: Evidence file, Section 2.1; Fact-Check Report Round 1, item 4.2.*

HCQ-M1-06 (Understand, MC)

Why does Module 1 call children not telling 'the most important number for teachers'?

- A. It shows that lessons are unnecessary
- B. It proves that children cannot be trusted to report
- C. It shows that most children are being harmed

- D. It shows the most powerful thing to teach is that telling is safe, never gets you in trouble, and brings help

Answer: **D**. The point is help-seeking. Shame and fear of blame keep children silent, so the lesson design aims at telling. *Source: Academy Module 1, Calm Fact 4.*

HCQ-M1-07 (Analyze, SCN)

A candidate wants to quote 'one-third of children told no one and only 3 percent went to police or a helpline.' Which handling is best?

- A. Say the figures come from UNICEF's first 13 countries (Africa and Southeast Asia), not the US, and confirm them in the primary reports before quoting [VERIFY]
- B. Present them as US figures because the topic is the same
- C. Quote them as exact and universal
- D. Add that 97 percent of US children tell a parent

Answer: **A**. Module 1 states the geographic limit. The Round 1 report could not confirm the figures on the project page, so they stay marked for checking. *Source: Academy Module 1, Calm Fact 4; Fact-Check Report Round 1, item 4.11.*

HCQ-M1-08 (Understand, MC)

What does the Finkelhor and colleagues (2021) review, as summarized in Module 1, suggest about lesson types?

- A. One large assembly is the best-supported approach
- B. Lectures on rules outperform role-play
- C. Active, skill-based, repeated programs are better supported than one-off assemblies or information-only lessons
- D. Fear-based warnings are proven to work best

Answer: **C**. The summary table in Module 1 favors active, structured, repeated programs. The kit marks the citation [VERIFY] until read in full. *Source: Academy Module 1, 'What the research says works'.*

HCQ-M1-09 (Understand, MC)

Which statement is an honest caveat about the evidence for Hackles-style teaching?

- A. A large randomized trial proves the program prevents sextortion
- B. Every claim in the kit has been independently verified
- C. Much of the best evidence comes from an adjacent field, and no rigorous trial of a modern K-12 sextortion or deepfake curriculum is known

- D. Evidence for fear appeals in online safety is conclusive

Answer: **C.** Module 1 and the Assessment Pack both say plainly that no rigorous trial is known and that adjacent-field evidence is used. *Source: Academy Module 1; Assessment Pack Section 13.*

HCQ-M1-10 (Apply, SCN)

Your principal says, 'One big assembly and we are done for the year.' Which reply fits Module 1?

- A. Refuse and explain that assemblies are harmful
- B. Affirm the goal, then offer both/and: a short kickoff plus ten short classroom lessons, and offer to pilot with one grade
- C. Tell the principal the evidence proves assemblies never work
- D. Agree, since any program is better than none

Answer: **B.** Both/and keeps the visible response the principal wants and adds repeated skill practice. Overstating the evidence would not be honest. *Source: Academy Module 1, Scenario 1.A.*

HCQ-M1-11 (Apply, SCN)

A fourth grader says, 'I play every night with a guy named Max. He's 14. He gave me free coins.' What is the best first response?

- A. Stay calm and curious ('Tell me more about the game'), do not interrogate, make a quiet note and let the counselor know per school process
- B. Ask the child to show you the whole chat on their device
- C. Ignore it, because it is just a game
- D. 'That is dangerous! Never talk to him again!'

Answer: **A.** One comment alone is not a disclosure of harm. Gifts, an older 'friend' and nightly contact are a pattern worth noting. Alarm or interrogation ends the conversation. *Source: Academy Module 1, Scenario 1.B.*

HCQ-M1-12 (Analyze, SCN)

In the Max scenario, which added detail would change your response to treating it as a possible disclosure?

- A. The child says other students also have game friends
- B. The child says Max asked for secrecy, pictures, or a move to a private app, or made threats
- C. The child says Max is good at the game
- D. The child says the coins were colorful

Answer: **B.** Secrecy, pictures, threats or a move to a private app are the signals the kit says to treat as a potential disclosure and handle with the First 10 Minutes. *Source: Academy Module 1, Scenario 1.B guidance.*

HCQ-M1-13 (Remember, MC)

Which of these is NOT part of a teacher's role in Hackles?

- A. Reporting as required
- B. Noticing and listening
- C. Handing off to trained people
- D. Investigating who did it and confronting a suspect

Answer: **D.** The role is recognition and response. Investigation, confrontation, viewing images, searching phones and counseling are not the teacher's job. *Source: Academy Module 1, Part 5.*

HCQ-M1-14 (Understand, MC)

Why does Module 1 say 'fear without a skill is just fear'?

- A. A child told only that dangers exist has nothing to do with that information, while a rehearsed skill gives them an action
- B. Skills make fear unnecessary for adults
- C. Children cannot feel fear about technology
- D. Fear is never present in children

Answer: **A.** The first reason in 'Why not just scare them' is that fear needs a doable action attached to it. *Source: Academy Module 1, Part 3.*

HCQ-M1-15 (Understand, MC)

Module 1 Calm Fact 1 says most children use technology safely most of the time. What follows for teaching?

- A. Build skills calmly for the minority of moments that go wrong, rather than skipping lessons or using scare tactics
- B. Assume every child is already being harmed
- C. Skip online safety lessons
- D. Teach with graphic stories so the minority takes it seriously

Answer: **A.** The fact supports calm skill-building. The existence of serious cases is the reason to teach at all. *Source: Academy Module 1, Calm Fact 1; self-check Q2.*

HCQ-M1-16 (Apply, MC)

Which message is a well-formed skill message?

- A. 'Hackers are everywhere.'

- B. 'Everyone online is lying.'
- C. 'Never share anything online.'
- D. 'If an account asks for your password or code, hackles up: pause and check with a trusted adult.'

Answer: **D**. A good skill message names a signal, one concrete action and a person to tell, in a hopeful, shame-free tone. *Source: Academy Module 1, Activity 1.3; self-check Q10.*

HCQ-M1-17 (Evaluate, SCN)

An article says Thorn found that about 1 in 25 teens have had deepfake nudes created of them. What does the kit's check say?

- A. The article is right; Thorn's figure is 1 in 25
- B. Thorn reported 1 in 17 teens; '1 in 25' is the UNICEF figure for some countries, so the article's attribution is wrong
- C. Thorn's figure is 1 in 8, which is the same thing
- D. Neither organization has reported such a figure

Answer: **B**. Round 1 corrected this exact error: 1 in 17 (Thorn, 1,200 US young people) and 1 in 8 who know someone targeted; 1 in 25 is UNICEF in some countries. *Source: Fact-Check Report Round 1, items 4.8 to 4.10.*

HCQ-M1-18 (Evaluate, SCN)

Which sentence for a parent handout is the most defensible?

- A. 'Every statistic in this handout is guaranteed accurate.'
- B. 'Studies show Hackles prevents sextortion.'
- C. 'Research proves fear-based warnings backfire in online safety.'
- D. 'The evidence on fear appeals is mixed, and direct evidence for online safety is thin, so we teach calm skills with practice.'

Answer: **D**. The kit says not to claim fear appeals are proven to backfire in this field and that no trial shows the program prevents harm. *Source: Academy Module 1; Assessment Pack Section 13.*

M2: The Cybersecurity You Need

HCQ-M2-01 (Remember, MC)

In the kit's rule of thumb for a passphrase, what is the minimum?

- A. One clever word with symbols
- B. Five or more unrelated words, at least 15 characters in total, ideally chosen at random
- C. A pet's name plus the year
- D. Any eight characters changed monthly

Answer: **B.** NIST SP 800-63B-4 sets 15 characters as the minimum for a password used alone. CISA suggests 5 to 7 words and 16 or more characters.

Source: *Academy Module 2, Part 1; Fact-Check Report Round 1, items 6.1 and 6.2.*

HCQ-M2-02 (Remember, MC)

According to Module 2, which habit matters most?

- A. Changing it every week
- B. Sharing it with a trusted friend
- C. A unique, long passphrase for each important account
- D. Special characters in a short word

Answer: **C.** Length beats cleverness, and reuse is the real enemy. Source: *Academy Module 2, self-check Q1.*

HCQ-M2-03 (Understand, MC)

Why is reusing a password the real problem?

- A. When one site is hacked, stolen email and password lists are tried on other sites, so one leak can open every account that shares the key
- B. Hackers cannot guess reused passwords
- C. Websites cannot store reused passwords
- D. Reuse makes a password shorter

Answer: **A.** The Key Ring idea: one key for six doors means six open doors after a leak. Source: *Academy Module 2, 'Why reuse is the problem'.*

HCQ-M2-04 (Remember, MC)

What does Module 2 say about a login code a service sends you?

- A. It is safe to share if the person sounds friendly
- B. A moderator may need it to fix your account
- C. A code is a key: nobody who is really helping you will ask you to read it to them

- D. Support staff may ask for it to verify you

Answer: **C.** Even a code from a text message can be tricked out of you. The rule holds for support, friends and moderators. *Source: Academy Module 2, 2-step verification; self-check Q2.*

HCQ-M2-05 (Understand, MC)

Why does Module 2 advise turning on 2-step verification for email first?

- A. Email can reset many other accounts, so it is the master key
- B. Email accounts do not have passwords
- C. Email stores the most photos
- D. Email is the only account that can be hacked

Answer: **A.** Protect the account that can unlock the others. *Source: Academy Module 2, 2-step verification rules; self-check Q3.*

HCQ-M2-06 (Remember, MC)

What is a passkey?

- A. A code texted to your phone
- B. A password manager's master phrase
- C. A cryptographic key on your device unlocked by fingerprint, face or screen lock, replacing a typed password
- D. A longer password written on paper

Answer: **C.** Nothing to type and nothing to hand over in a phishing message. Support varies by service, and recovery needs planning. *Source: Academy Module 2, Passkeys; self-check Q6.*

HCQ-M2-07 (Understand, MC)

Why can a passkey resist a phishing message?

- A. It expires every hour
- B. There is nothing to type or hand over, and the key only works for the real site on your device
- C. It is stored in plain text where fake sites cannot see it
- D. It is a very long password

Answer: **B.** The kit's description: nothing to copy and nothing to reuse. NIST treats such authenticators as phishing resistant. *Source: Academy Module 2, Passkeys; Fact-Check Report Round 1, item 6.5.*

HCQ-M2-08 (Apply, MC)

Which invented passphrase best fits the kit's rule of thumb?

- A. Tr0ub4dor&3

- B. P@ssw0rd!
- C. violet anchor pencil toast marble
- D. Fluffy2012

Answer: **C.** Five unrelated words, over 15 characters, silly and memorable. The others are short, common patterns or famous substitutions. *Source: Academy Module 2, 'What makes a good password'.*

HCQ-M2-09 (Understand, MC)

What does NIST SP 800-63B-4 say about forcing regular password changes, as summarized in the kit?

- A. Passwords must be changed every 30 days
- B. Verifiers must not require periodic changes without evidence of compromise
- C. Changes are required only for children
- D. Passwords must change after every login

Answer: **B.** The kit cites the current revision (Aug 2025): no composition rules, no routine periodic changes, a blocklist check, and at least 64 characters allowed. *Source: Academy Module 2, Part 1; Fact-Check Report Round 1, item 6.1.*

HCQ-M2-10 (Remember, MC)

Which are the five hackles-raisers taught for phishing and scams?

- A. Spelling, color, logo, font and length
- B. Urgency, secrecy, too good to be true, the ask, and does not add up
- C. Speed, price, brand, color and sound
- D. Sender, subject, date, size and language

Answer: **B.** None of the five depends on technology, so they travel across apps. *Source: Academy Module 2, Part 2.*

HCQ-M2-11 (Apply, SCN)

A message says, 'Your account will be deleted in 1 hour. Click to confirm your password.' Which hackles-raisers are present?

- A. Secrecy only
- B. Urgency and the ask
- C. None of them
- D. Too good to be true only

Answer: **B.** A deadline is urgency and a request to confirm a password is the ask. Pause and check another way. *Source: Academy Module 2, self-check Q4.*

HCQ-M2-12 (Remember, MC)

What is the Own-Door rule in the Facilitator Kit?

- A. Reply to the sender and ask if it is real
- B. Do not use the link, number or contact in the message; open the site or app yourself, call a number you already had, or ask in person
- C. Click the link only if it looks professional
- D. Forward the message to a friend to check

Answer: **B**. Check another way, using a door you already trust. *Source: Facilitator Kit Handout H4; Academy Module 2.*

HCQ-M2-13 (Apply, SCN)

A student tells you she typed her game password into a fake giveaway page. Which response fits the kit?

- A. 'Thank you for telling me. It is not your fault. Let's tell a trusted adult and use the official steps to secure the account.'
- B. 'Don't tell anyone; we will fix it quietly.'
- C. 'How could you be so careless?'
- D. 'Never play that game again.'

Answer: **A**. Shame-free, tell an adult, official recovery. Blame makes the next disclosure less likely. *Source: Academy Module 2, self-check Q10.*

HCQ-M2-14 (Understand, MC)

Why does the kit say 'Never share personal information online' is not enough on its own?

- A. It is a complete safety plan
- B. It is illegal advice
- C. It is vague and cannot be followed perfectly, so it should be paired with 'who is asking, why, and tell a trusted adult'
- D. It applies only to adults

Answer: **C**. The kit frames a better rule: who is asking, why, and do I trust them, plus telling. *Source: Academy Module 2, 'A privacy rule that does not work'.*

HCQ-M2-15 (Remember, MC)

What does the 3-2-1 backup rule say?

- A. Three passwords, two locks, one code
- B. Three copies, on two kinds of storage, with one stored elsewhere
- C. Three devices, two accounts, one email

- D. Three updates a year, two restarts, one backup

Answer: **B**. The kit adds that backups should be tested, and for most teachers an approved cloud plus a second location is enough. *Source: Academy Module 2, Part 5; Concepts Lab Demo 10.*

HCQ-M2-16 (Understand, MC)

Why does Demo 10 stress restoring a backup at least once?

- A. Backups only work if restored weekly
- B. Restoring makes files smaller
- C. Restoring deletes the backup
- D. A tested copy kept elsewhere beats panic; a copy you have never restored is only a hope

Answer: **D**. The big idea is another copy, somewhere else, that you know works. *Source: Concepts Lab Demo 10.*

HCQ-M2-17 (Remember, MC)

What is the 'mosaic effect' in Demo 9?

- A. Small, harmless facts combine into a picture that points to one person
- B. An image filter
- C. A password made of tiles
- D. A map of Wi-Fi coverage

Answer: **A**. Alone one footprint rarely matters; together they form a profile. The demo uses a fictional person, Quinn. *Source: Concepts Lab Demo 9.*

HCQ-M2-18 (Remember, MC)

Which three families of proof does Demo 6 use for authentication?

- A. A name, an address and a phone number
- B. Something you type, click and send
- C. Something you know, something you have, something you are
- D. A username, a nickname and a code word

Answer: **C**. A second proof from a different family stops most takeovers from a stolen password alone. *Source: Concepts Lab Demo 6.*

HCQ-M2-19 (Understand, MC)

What does Demo 7 teach about updates?

- A. Updates make old holes larger
- B. Updates only add new features
- C. Updates are optional for security

- D. An update is a fix for a known hole, and the race is between the fix reaching devices and someone misusing the hole

Answer: **D**. Software has mistakes; some are holes. Every copy needs the fix.

Source: *Concepts Lab Demo 7; Academy Module 2 Part 4; self-check Q7.*

HCQ-M2-20 (Understand, MC)

Why do well-built sites store a hash (a one-way fingerprint) of a password instead of the password?

- A. It lets staff read passwords more easily
- B. The site can check what you type without keeping it, and a stolen list of fingerprints is much less harmful than a stolen list of passwords
- C. It makes login slower on purpose for every user
- D. Hashes can be reversed instantly to show the password

Answer: **B**. Demo 2's big idea is the one-way fingerprint. Salting and slow hashes are taught at the 9-12 level. Source: *Concepts Lab Demo 2.*

HCQ-M2-21 (Analyze, SCN)

The kit says 'at least 15 characters (CISA recommends 16 or more)'. Why are both numbers there?

- A. Both numbers are guesses
- B. 15 is for children and 16 is for adults
- C. The two agencies disagree and the kit picked one at random
- D. NIST sets 15 as the minimum for a password used alone, while CISA recommends at least 16 characters or 5 to 7 unrelated words

Answer: **D**. Round 1 corrected the earlier rule to reflect both sources. Source: *Fact-Check Report Round 1, items 6.1 and 6.2.*

HCQ-M2-22 (Evaluate, SCN)

A slide says 'MFA blocks over 99 percent of attacks, says Microsoft.' How should it be handled?

- A. Raise it to 100 percent for emphasis
- B. Delete all mention of MFA
- C. Present it as a proven national statistic
- D. Label it as a vendor claim (99.9 percent of account compromise attacks, 2019, citing a SANS white paper), indicative not exact, and note CISA gives no percentage

Answer: **D**. Round 1 corrected the wording and kept the caution. Source: *Fact-Check Report Round 1, item 6.3; Concepts Lab Demo 6.*

HCQ-M2-23 (Apply, SCN)

A colleague wants to paste a student's name and a disclosure note into a chatbot to tidy the wording. What does the kit say?

- A. Do not paste student names, work containing personal details or disclosure notes into a chatbot, and follow your district's AI policy [VERIFY]
- B. It is fine if the chatbot is popular
- C. It is fine if the name is shortened to initials
- D. It is fine for notes, but not for names

Answer: **A.** Module 3 sets this limit for teacher use of AI tools. Student data and disclosures stay out of chatbots. *Source: Academy Module 3, 'A note on teacher use'.*

M3: How Kids Really Live Online

HCQ-M3-01 (Remember, MC)

Which four patterns does Module 3 teach as showing up in every app?

- A. Speed, Cost, Volume, Size
- B. Pressure, Secrecy, The Ask, The Move
- C. Name, Age, Place, School
- D. Games, Chats, Video, Feeds

Answer: **B**. Every risk in Module 1 is a variation on these four. *Source: Academy Module 3, Part 2.*

HCQ-M3-02 (Understand, MC)

Which pairing of pattern and response is correct?

- A. Secrecy: Pause. The Ask: Tell. Pressure: Check.
- B. The Move: Click. The Ask: Reply. Secrecy: Share.
- C. Secrecy: Tell. The Ask: Check. Pressure: Pause.
- D. Pressure: Tell. Secrecy: Check. The Ask: Pause.

Answer: **C**. Pressure gets a Pause, secrecy gets a Tell, the ask gets a Check, and the move gets a Pause and a question about why the new place is more private. *Source: Academy Module 3, Part 2 table.*

HCQ-M3-03 (Remember, MC)

Which four adult reactions does Module 3 say make children stop telling?

- A. Panic, punishment, lecture, minimizing
- B. Delay, distraction, laughter and gifts
- C. Phone calls, e-mails, texts and letters
- D. Praise, thanks, questions and silence

Answer: **A**. Each ends the conversation. Take them off the table in advance with the promise: you will not be in trouble for telling me things. *Source: Academy Module 3, Part 3.*

HCQ-M3-04 (Apply, SCN)

A student says, 'My friend got a weird message. What should she do?' What is the best reply?

- A. 'Is it actually you?'
- B. 'That sounds stressful. I'm glad your friend has someone like you. Here is what I would suggest for her... and you can always tell me about anything too.'

- C. 'That is nothing to worry about.'
- D. 'Tell your friend to stop using that app.'

Answer: **B.** Treat 'my friend' as real and keep the door open. Asking 'is it you?' can close it. *Source: Academy Module 3, 'When my friend means me'.*

HCQ-M3-05 (Apply, MC)

Which question is the best open question for a student about a game?

- A. 'Do you play every night?'
- B. 'Is that game safe?'
- C. 'What do you like about it, and what is annoying?'
- D. 'You are not talking to strangers, right?'

Answer: **C.** Open questions invite explanation. Yes and no questions and loaded questions end conversations. *Source: Academy Module 3, curiosity script; Module 5 Part 3.*

HCQ-M3-06 (Understand, MC)

Which AI companion idea is part of the kit's 'fact sheet, not a scare'?

- A. It forgets everything you type
- B. It can agree too much, so it is not a substitute for a trusted adult
- C. It is a person on the other end
- D. It is always a reliable source of facts

Answer: **B.** The kit lists: not a person, can be wrong, can agree too much, remembers and stores, not a substitute for a trusted adult. *Source: Academy Module 3, World 3.*

HCQ-M3-07 (Remember, MC)

What did Pew Research Center report in December 2025 about US teens and AI chatbots?

- A. 95 percent, about half daily
- B. 64 percent say they use AI chatbots, about 3 in 10 daily
- C. 99 percent, all daily
- D. 14 percent, about 1 in 100 daily

Answer: **B.** [VERIFIED 2026-10-05 in the kit; 1,458 teens surveyed Sept 25 to Oct 9, 2025.] *Source: Academy Module 3, World 3; Fact-Check Report Round 1, item 4.16.*

HCQ-M3-08 (Analyze, SCN)

A speaker says 'one in three teens discuss serious matters with AI instead of a person.' What is wrong?

- A. The statistic is correct as stated
- B. Common Sense reported about one in three AI-companion users, not one in three of all teens
- C. The true figure is one in three of all adults
- D. Common Sense reported that nobody does this

Answer: **B.** The denominator matters. Round 1 corrected the kit on this point. *Source: Fact-Check Report Round 1, items 4.13 and 4.14.*

HCQ-M3-09 (Understand, MC)

Why does Module 3 say 'a group chat is not a private room'?

- A. Anything can be screenshotted, forwarded or shown to others
- B. Group chats are always public websites
- C. Group chats delete messages automatically
- D. Only teachers can see group chats

Answer: **A.** This is the key idea for children about group chats. *Source: Academy Module 3, World 2.*

HCQ-M3-10 (Apply, SCN)

A chat goes quiet whenever one student posts. Which upstander moves does the kit's 6-8 'Group Chat Dynamics' lesson practice?

- A. Screenshotting and posting the chat publicly
- B. Waiting to see what happens
- C. Joining in so you are not the next target
- D. A quiet check-in, saying 'not cool' in the chat, leaving the chat, and telling a trusted adult

Answer: **D.** These are the upstander moves named in Module 3. *Source: Academy Module 3, World 2 (Hackles connection).*

HCQ-M3-11 (Understand, MC)

In Demo 12, what is the better habit than trying to spot a fake by its flaws?

- A. Share it to see what others say
- B. Trust any image that looks sharp
- C. Decide it is fake because it is shocking
- D. Verify the source: find the original, look for other reliable confirmation, and use a second channel for urgent requests

Answer: **D.** Fakes improve, so verification habits outlast flaw-spotting. *Source: Concepts Lab Demo 12.*

HCQ-M3-12 (Understand, MC)

What is the 'liar's dividend' in Demo 12?

- A. Wrongly dismissing real evidence as fake because fakes exist
- B. A tax on synthetic media
- C. The profit made by deepfake apps
- D. A reward for exposing fakes

Answer: **A.** Good defenders are careful, not cynical. *Source: Concepts Lab Demo 12.*

HCQ-M3-13 (Apply, SCN)

A shocking photo of a public figure is spreading. What should a student do first, according to Demo 12 and the Assessment Pack?

- A. Share it fast while it is trending
- B. Check the original source and look for confirmation from reliable outlets before sharing
- C. Decide it is real if it looks real
- D. Decide it is fake because it is shocking

Answer: **B.** Both gut reactions skip checking. The Assessment Pack 9-12 survey item uses this answer key. *Source: Assessment Pack Section 6 item 7; Concepts Lab Demo 12.*

HCQ-M3-14 (Understand, MC)

What does Module 3 say about the research on screens and well-being?

- A. It sets a single daily limit for everyone
- B. It proves screens cause harm in all children
- C. It is mixed and still developing; quality, content, context, sleep and what screens replace seem to matter more than a number on a clock
- D. It proves screens have no effect

Answer: **C.** The kit points to the AAP's family media plan approach [VERIFIED 2026-10-05: [healthychildren.org](https://www.healthychildren.org/)]. *Source: Academy Module 3, Part 4.*

HCQ-M3-15 (Evaluate, SCN)

A teacher tells students that several state attorneys general have 'proved' a game company harms children. How should this be corrected?

- A. These are allegations and fast-moving developments, not settled findings, so do not state them as fact in class [VERIFY current status]
- B. Say the actions were all dismissed
- C. Remove the topic entirely and never discuss games
- D. Add that the companies have admitted guilt

Answer: **A.** Module 3 and the evidence file label them allegations. *Source: Academy Module 3, World 1; Evidence file Section 2.6.*

HCQ-M3-16 (Apply, MC)

In Week 4's Curiosity Interview, which behavior fits the five-step script?

- A. Correcting the partner's app choices
- B. Listening about 70 percent of the time and reflecting back what you heard without judging
- C. Writing down names and details to keep
- D. Offering a lecture on risks

Answer: **B.** Be curious, listen more than you talk, reflect back, ask open questions, offer do not impose. *Source: Academy Module 3, Part 3.*

M4: Teaching Safety That Works

HCQ-M4-01 (Remember, MC)

What is Rule 1 of the five rules of safety teaching that works?

- A. Skills over information
- B. Information over skills
- C. Fear over calm
- D. Assemblies over lessons

Answer: **A.** Good lessons teach a few facts and one concrete skill to practice.

Source: *Academy Module 4, Part 1.*

HCQ-M4-02 (Apply, MC)

Which is a skill-based objective (the 'Teacher test')?

- A. After this, students will appreciate security
- B. After this, students will know that passwords are important
- C. After this, students will be aware of hackers
- D. After this, students can say 'No, I'll check with my grown-up' when someone asks for a password

Answer: **D.** A skill is a verb students can show. Know, be aware and appreciate cannot be observed. Source: *Academy Module 4, Rule 1.*

HCQ-M4-03 (Understand, MC)

Why does role-play work for safety skills?

- A. It tests children on facts
- B. It replaces the need to tell an adult
- C. It scares children into compliance
- D. It makes the words available when the real moment comes; a child who has practiced 'I need help' can say it once in a hard moment

Answer: **D.** Practice builds a reflex. Source: *Academy Module 4, Rule 2.*

HCQ-M4-04 (Remember, MC)

Which role-play practice does Module 4 recommend?

- A. Assign the most shy student to play the victim
- B. Ask students to act out graphic details
- C. Let students play the helper, not the victim, and have the adult play the difficult person with a clear signal for stepping out of character
- D. Use real stories from students

Answer: **C.** Also use puppets or character cards for younger children so no child plays the 'bad guy.' *Source: Academy Module 4, Rule 2.*

HCQ-M4-05 (Apply, MC)

Which framing replaces a fear message with a tool?

- A. 'If you talk to a stranger, something terrible could happen.'
- B. 'If anyone asks for secrets or pictures, your hackles go up. Pause and tell.'
- C. 'Your life will be ruined.'
- D. 'You will be hacked!'

Answer: **B.** The Hackles framing gives a signal and an action. *Source: Academy Module 4, Rule 3 table.*

HCQ-M4-06 (Remember, MC)

Which three promises does Hackles language make?

- A. Nobody will ever know; nothing will happen; everything is private
- B. You will always be right; you can never be fooled; you must never share
- C. Every answer will be graded; every mistake is recorded; every parent is told
- D. A false alarm is fine and welcome; it is never your fault; you will not be in trouble for telling

Answer: **D.** Say them aloud often, especially to older students, who assume the opposite. *Source: Academy Module 4, Rule 4.*

HCQ-M4-07 (Apply, MC)

Which phrase best replaces 'Why did you click it?'

- A. 'You should have known better.'
- B. 'Good kids do not do that.'
- C. 'What happened next?'
- D. 'How could you?'

Answer: **C.** 'Why' questions can sound like blame. *Source: Academy Module 4, Rule 4 table.*

HCQ-M4-08 (Understand, MC)

Why does the kit say 'never' language invites failure?

- A. Adults should say 'always' instead
- B. Children inevitably share some things, so 'never share your name' sets them up to feel they failed; 'think first' and 'check first' are more honest

- C. Children are not capable of safe behavior
- D. 'Never' is too gentle for safety lessons

Answer: **B.** Prefer 'think first,' 'ask a trusted adult,' 'check first.' *Source: Academy Module 4, Rule 4.*

HCQ-M4-09 (Remember, MC)

What is a spiral curriculum, as used in Hackles?

- A. Repeating the identical lesson every year
- B. Each grade band returns to the same core routine and strands at a more advanced level
- C. Teaching only the newest apps
- D. Teaching all topics in one long unit

Answer: **B.** One lesson does not do it; revisit a little deeper over months and years. *Source: Academy Module 4, Rule 5.*

HCQ-M4-10 (Apply, SCN)

Two grade 4 password lessons are compared. Which is the good lesson?

- A. The teacher reads ten password rules from slides and gives a quiz
- B. The teacher warns that bad passwords will cost students everything
- C. The teacher assigns a chapter on password history
- D. Groups build the funniest four-word passphrase, then use a crack-timer card; exit ticket asks for a new rule and when to tell a grown-up

Answer: **D.** The good lesson has students create, compare, discuss and decide in a calm tone. *Source: Academy Module 4, Part 2, Pair 1.*

HCQ-M4-11 (Analyze, SCN)

Two grade 8 lessons on pressure online: A shows graphic stories of what happens to children who share pictures; B uses calm case files about a fictional character and rehearses STOP, SAVE, TELL, REPORT. Which statement is correct?

- A. A is better because it motivates through fear
- B. B follows the evidence-informed approach: no graphic detail, a skill, and help-seeking, while A risks shame, fear and silence
- C. A is better because it is more realistic
- D. Both are equally good

Answer: **B.** The kit's Good versus Weak pair says exactly this. *Source: Academy Module 4, Part 2, Pair 3.*

HCQ-M4-12 (Remember, MC)

Which item is on the 'good lesson' checklist?

- A. Gives students a role other than victim
- B. Includes a graphic example for realism
- C. Requires every student to share a personal story
- D. Runs 45 minutes

Answer: **A.** Also: one clear skill, a rehearsal, no fear or shame, ends with who to tell, about 15 minutes, a check, a safe way to disclose. *Source: Academy Module 4, 'The good lesson checklist'.*

HCQ-M4-13 (Understand, MC)

What caution does Module 4 give about gamification?

- A. Use games that practice the skill, never games that act out the harm
- B. Never use games
- C. Games should be graded
- D. Use points to rank children against each other

Answer: **A.** Fun matters, and the game must teach the skill. *Source: Academy Module 4, Part 4.*

HCQ-M4-14 (Evaluate, SCN)

A colleague says, 'Can't we just show a video? Fear gets attention.' What is the best reply?

- A. A video alone is information; add a short rehearsal and a calm tone, because fear without a skill is just fear and shame blocks telling
- B. Say a video is the same as an active lesson
- C. Agree, because attention is the main goal
- D. Say videos are always banned

Answer: **A.** The kit's rules favor rehearsal and calm skill practice. A video can serve as a hook only. *Source: Academy Module 4, Scenario 4.A and Rules 1 to 3.*

HCQ-M4-15 (Apply, SCN)

A student who 'already knows it all' keeps interrupting. What does the kit suggest?

- A. Quiz them in front of the class
- B. Send them out of the room
- C. Ignore them for the rest of the term
- D. Give them a role, such as a helper, detective or demonstrator

Answer: **D.** Module 5's management table says to give know-it-alls and jokers a role. *Source: Academy Module 4, Scenario 4.B; Module 5 Part 4.*

HCQ-M4-16 (Apply, SCN)

During a role-play, several students giggle. Which response fits?

- A. Cancel the lesson
- B. Name it kindly ('A lot of us laugh when things feel awkward') and keep going
- C. Single out one student
- D. Stop and punish the class

Answer: **B.** Giggling is often nervous energy, not disrespect. *Source: Academy Module 4, Scenario 4.C; Module 5 Part 4.*

HCQ-M4-17 (Remember, MC)

In the student plan STOP, SAVE, TELL, REPORT, what does SAVE mean?

- A. Save and share any image as proof
- B. Save the password to a document
- C. Delete everything to be safe
- D. Keep the account name, links, dates and text threats; never save or share images

Answer: **D.** SAVE means text evidence only. *Source: Academy Module 4, Rule 1; Module 6 Part 4.*

HCQ-M4-18 (Analyze, MC)

Why does Module 4 prefer 'someone who is pressuring you' to 'predator' and 'the person it happened to' to 'victim' when talking with children?

- A. The words are too long
- B. The words are more frightening
- C. Shame-free, concrete language is easier for children to act on and keeps telling safe
- D. The words are legally prohibited in classrooms

Answer: **C.** The language table lists 'predator' and 'victim' (to a child) as phrases to avoid. *Source: Academy Module 4, Rule 4 table.*

M5: Running a 15-Minute Hackles Lesson

HCQ-M5-01 (Remember, MC)

What are the four parts of a 15-minute Hackles lesson and their times?

- A. Hook 2, Activity 8, Discuss 3, Takeaway 2
- B. Lecture 10, Quiz 3, Homework 1, Test 1
- C. Hook 5, Activity 5, Discuss 3, Takeaway 2
- D. Video 5, Video 5, Video 3, Video 2

Answer: **A.** The same skeleton is used in every Teacher Guide. *Source: Academy Module 5, Part 1.*

HCQ-M5-02 (Remember, MC)

What does 'one skill, one phrase, one gesture' mean?

- A. One teacher, one student, one device
- B. Three separate lessons in one
- C. One fact, one date, one quiz
- D. A lesson should be summarized by a single skill, a repeatable sentence and a hand signal; more means it is probably two lessons

Answer: **D.** Examples: Pause before you click; 'Hackles up? Pause, Check, Tell'; Pause Palm. *Source: Academy Module 5, Part 1.*

HCQ-M5-03 (Understand, MC)

Why must the Hook stay at about two minutes?

- A. If you are still talking at minute three, you have lost the class, and the activity is where students learn
- B. Hooks are not allowed to be fun
- C. The Takeaway needs 8 minutes
- D. Students cannot listen for more than a minute

Answer: **A.** Hook rules: do not scare, do not exceed two minutes, say what you will practice. *Source: Academy Module 5, The Hook.*

HCQ-M5-04 (Remember, MC)

Which order lists the question ladder from lower to higher level?

- A. Apply, recall, evaluate, create, explain
- B. Explain, recall, create, apply, evaluate
- C. Recall, explain, apply, evaluate, create
- D. Create, evaluate, apply, explain, recall

Answer: **C.** Start with what did we notice and climb toward how could we improve it. *Source: Academy Module 5, Part 3.*

HCQ-M5-05 (Apply, MC)

Which question is open rather than closed?

- A. 'Is that right?'
- B. 'Was that a scam?'
- C. 'What made you think it was a scam?'
- D. 'Did you tell an adult?'

Answer: **C.** Open questions invite explanation. *Source: Academy Module 5, Part 3.*

HCQ-M5-06 (Apply, SCN)

A student says, 'I would just send it.' What is the best response?

- A. Ignore the comment
- B. 'That is a terrible idea.'
- C. Ask the student to explain in front of everyone why they are careless
- D. 'Thanks for being honest. Lots of people feel that pressure. Let's practice a different response,' then follow up privately

Answer: **D.** A worrying answer is information, not a reason to shame. *Source: Academy Module 5, Part 3 (Responding to answers).*

HCQ-M5-07 (Remember, MC)

How long should wait time be after asking a question?

- A. 30 seconds
- B. Under one second
- C. About 3 to 5 seconds
- D. Two minutes

Answer: **C.** Wait time raises quality and participation. *Source: Academy Module 5, Part 2.*

HCQ-M5-08 (Understand, MC)

What is the purpose of the pass card?

- A. It preserves safety and dignity: any student may say 'pass' without explaining
- B. It lets students skip lessons
- C. It excuses students from homework
- D. It records who is uncomfortable

Answer: **A.** Always available, especially in sensitive lessons. *Source: Academy Module 5, Part 2.*

HCQ-M5-09 (Apply, SCN)

You are 12 minutes in and the activity is not finished. What does the time rescue table say?

- A. Add a second activity
- B. Skip the takeaway
- C. Extend the lesson by 10 minutes
- D. Cut one round of practice; keep the takeaway and the open door

Answer: **D.** Never cut the takeaway and the open door. *Source: Academy Module 5, Part 4 (Time rescue).*

HCQ-M5-10 (Remember, MC)

Which is one of the 'four mistakes to avoid above all'?

- A. Giving students a role
- B. Promising secrecy
- C. Starting with a hook
- D. Using a hand signal

Answer: **B.** The four: making a child the example, promising secrecy, ignoring the open door, teaching without prep for disclosures. *Source: Academy Module 5, Part 6.*

HCQ-M5-11 (Apply, SCN)

A student starts a long personal story in front of the class. What do you do?

- A. Let the story continue so everyone learns
- B. Tell them to stop and not speak again
- C. Ask follow-up questions in front of the class
- D. Thank them, redirect gently ('let's keep the details between us and talk privately after'), and follow up that day

Answer: **D.** This protects the student's privacy and keeps a path open for disclosure. *Source: Academy Module 5, Part 4.*

HCQ-M5-12 (Understand, MC)

What is the Takeaway formula?

- A. Fact plus quiz plus score
- B. Story plus joke plus video
- C. Skill plus gesture plus promise
- D. Warning plus consequence plus rule

Answer: **C.** Example: Pause before you click (Pause Palm), plus 'a false alarm is fine and it is never your fault.' *Source: Academy Module 5, The Takeaway.*

HCQ-M5-13 (Remember, MC)

In the Micro-Teach Rubric, which total marks Hackles-Ready practice?

- A. 6 to 11
- B. 12 to 17
- C. 18 to 24 out of 24
- D. Only 24

Answer: **C.** Six rows scored 1 to 4: 6 to 11 keep practicing; 12 to 17 solid; 18 to 24 Hackles-Ready. *Source: Academy Module 5, Part 7.*

HCQ-M5-14 (Analyze, SCN)

Only five students are active during the 8-minute activity. Which rubric row and design rule does this violate?

- A. Active practice: every student should do the skill at least twice, so redesign the activity
- B. Skill focus: the skill is unnamed
- C. Safety and closure: the close was calm
- D. Tone and language: no shaming occurred

Answer: **A.** The activity design rule is that everyone does something. *Source: Academy Module 5, The Activity; rubric row 3.*

HCQ-M5-15 (Apply, SCN)

A student's exit ticket says, 'Something happened on my account and I don't want to say.' What is the right step?

- A. Read exit tickets the same day, treat it as a possible disclosure, follow the First 10 Minutes and your policy, and involve the counselor
- B. Contact the family first without checking policy
- C. Post the note on the board to ask who wrote it
- D. Wait until the end of term to read the exit tickets

Answer: **A.** Module 5 says to check exit tickets for worrying content on the same day. *Source: Academy Module 5, Scenario 5.B and Part 4.*

HCQ-M5-16 (Understand, MC)

What is the 'I do, we do, you do' pattern?

- A. Students teach, teacher watches, parents grade
- B. Teacher models, the class tries together, then pairs or groups practice twice

- C. Teacher talks, class listens, class takes a test
- D. Teacher reads, students copy, students sign

Answer: **B**. Typical timing: 1 minute I do, 2 minutes we do, 5 minutes you do.

Source: *Academy Module 5, The Activity*.

HCQ-M5-17 (Evaluate, SCN)

Which hook follows Module 5's hook rules?

- A. A three-minute statistics lecture
- B. 'Imagine something terrible happens to you online.'
- C. Hold up a fake pop-up card and ask for a thumbs up or down: 'Detectives, is this real?'
- D. A graphic news story about a victim

Answer: **C**. A good hook is curious, calm, short and names the skill. It never scares. Source: *Academy Module 5, The Hook*.

HCQ-M5-18 (Analyze, MC)

The Peer Coaching Guide says not to add up Fun, Safe, Skill-based ratings or compare teachers. Why?

- A. Because the ratings are always wrong
- B. Because totals are required by law
- C. Because teachers should never be observed
- D. A rating is a conversation starter, not a grade; patterns matter more than single items, and only one grow is given

Answer: **D**. The guide says to pick one grow and avoid comparing teachers.

Source: *Peer Coaching Guide Section 3*.

M6: Sensitive Topics and Disclosures

HCQ-M6-01 (Remember, MC)

Which three sentences does the kit teach for the first moments of a disclosure?

- A. 'I won't tell anyone. It will be fine. Forget it.'
- B. 'Are you sure? That is odd. Delete it.'
- C. 'Thank you for telling me. This is not your fault. You are not in trouble.'
- D. 'Why did you do that? Who else knows? Show me.'

Answer: **C**. The three sentences reassure without blame. *Source: Academy Module 6, Part 3; Disclosure Guide Section 2.*

HCQ-M6-02 (Remember, MC)

What is the teacher's role in a disclosure?

- A. Counselor who treats the child
- B. Detective who confronts the other person
- C. Recognition and response: listen, reassure, protect evidence safely, report, hand off, document, and look after the child and yourself
- D. Investigator who finds out what happened

Answer: **C**. You are not an investigator, a therapist or a police officer. *Source: Disclosure Guide Section 1.*

HCQ-M6-03 (Understand, MC)

Why should you not promise a child 'I won't tell anyone'?

- A. Because teachers are not allowed to speak to children privately
- B. Because children do not care about secrecy
- C. Because secrets are always safe to keep
- D. You may be required to tell people whose job is to help, and breaking a promise hurts more; say 'I can't keep this a secret, because I want to get you help. I will tell you who I tell.'

Answer: **D**. Honesty about limits builds trust. *Source: Academy Module 6, Part 3 Step 4; Script D.*

HCQ-M6-04 (Apply, SCN)

A second grader says, 'Somebody on my tablet game said not to tell my mom. He gives me gems.' What is the best response?

- A. 'Show me the chat.'

- B. 'He is probably just a kind player.'
- C. 'Thank you for telling me. You are not in trouble. Can you tell me a little more?' Then report on reasonable suspicion without asking for names or details
- D. Phone the child's mother before anyone else

Answer: **C.** Secrecy and gifts from an unknown person are a reasonable-suspicion pattern. Do not interrogate, and do not contact the family first. *Source: Academy Module 6, Script A and debrief.*

HCQ-M6-05 (Remember, MC)

What is the typical standard that triggers a report, as described in the kit?

- A. A police report
- B. A confession
- C. Reasonable suspicion or reason to believe, not proof; the exact standard varies by state [VERIFY]
- D. Proof beyond doubt

Answer: **C.** Reporters do not have to prove abuse occurred. *Source: Academy Module 6, Part 2; Fact-Check Report Round 1, item 3.3.*

HCQ-M6-06 (Understand, MC)

Why does the kit say that telling your principal may not satisfy your own duty?

- A. The duty is identical in every state
- B. Principals are never involved in reporting
- C. Teachers are never legally required to report
- D. In many states the duty is personal and internal reporting may not relieve it, while procedures vary by state; check your state and district policy [VERIFY]

Answer: **D.** Round 1 corrected 'most states' to 'many states.' The practical message is to report yourself and also tell the administrator per policy. *Source: Fact-Check Report Round 1, item 3.4; Academy Module 6 Part 2.*

HCQ-M6-07 (Remember, MC)

What must you never do with suspected sexual images of a minor?

- A. Keep them to show to the principal
- B. Forward them to the counselor
- C. View, copy, download, forward, print or screenshot them
- D. Print one copy for the file

Answer: **C.** Under federal law, knowing possession or sharing is a serious crime with narrow defenses; secure the device per policy [counsel to confirm]. *Source: Academy Module 6, Step 5; Disclosure Guide Step 5.*

HCQ-M6-08 (Apply, SCN)

A student says a classmate has an intimate image on a phone. A colleague suggests you 'just look to check.' What do you do?

- A. Delete the image to protect the classmate
- B. Look briefly to confirm
- C. Ask another student to forward it to you
- D. Do not look; ask the student not to delete or forward anything; secure the device per policy; report personally and promptly

Answer: **D.** Good intentions are not a safe assumption. Authorities collect evidence lawfully. *Source: Academy FAQ 16; Disclosure Guide Step 5.*

HCQ-M6-09 (Remember, MC)

In STOP, SAVE, TELL, REPORT, what is saved?

- A. The password to the account
- B. Nothing; everything is deleted
- C. Account names, profile links, dates and threatening text, never images
- D. Copies of any image sent

Answer: **C.** SAVE means text evidence. *Source: Academy Module 6, Part 4; Assessment Pack Section 6.*

HCQ-M6-10 (Understand, MC)

What does NCMEC's Take It Down service do, according to the kit?

- A. Reports the child to the school
- B. Removes any adult image from any site instantly
- C. Deletes a child's account
- D. Helps remove images of people who were under 18 when the image was made from participating platforms, using a hash so the image is never uploaded. It does not work on encrypted platforms

Answer: **D.** People 18 or older are directed to StopNCII.org. [VERIFIED 2026-10-05: takeitdown.ncmec.org] *Source: Fact-Check Report Round 1, items 1.2 and 1.6; Academy Module 6.*

HCQ-M6-11 (Apply, MC)

Which entry belongs in your documentation of a disclosure?

- A. Your guess about what really happened

- B. An opinion about the family
- C. A diagnosis
- D. The child's exact words in quotation marks, date, time, place, who you told and what you did

Answer: **D.** Document facts only. *Source: Academy Module 6, Step 7.*

HCQ-M6-12 (Remember, MC)

Where should a private conversation with a child take place?

- A. In a car
- B. Alone in a closed room
- C. A private place that is still visible to other adults, with the door open or a glass window; never alone behind a closed door
- D. In front of the class

Answer: **C.** This protects the child and the adult. *Source: Academy Module 6, Step 1.*

HCQ-M6-13 (Apply, SCN)

A student blurts out in class, 'That happened to me!' about a threat and a picture. What is the best immediate response?

- A. Ignore it until the lesson ends tomorrow
- B. Ask them for details in front of the class
- C. Let classmates ask questions
- D. Thank them, say you will talk privately in a moment, calm the class and arrange for another adult to supervise, then meet the student that day

Answer: **D.** Contain the moment without shaming, protect privacy, and move to the First 10 Minutes. *Source: Academy Module 6, Script C and 'Disclosures in front of the class'.*

HCQ-M6-14 (Apply, SCN)

After a lesson on pressure online, a student says, 'It's kind of me.' after speaking of 'a friend.' What now?

- A. 'Why did you not say so?'
- B. Promise to tell nobody
- C. Thank them calmly, say the three sentences, be honest about telling people who can help, and do not ask to see messages or images
- D. 'I knew it was you.'

Answer: **C.** Accept the shift calmly. Honest limits and no pressure. *Source: Academy Module 6, Script B.*

HCQ-M6-15 (Analyze, SCN)

A student asks, 'Promise you won't tell?' Which reply is best?

- A. 'Only if it is minor.'
- B. 'I promise.'
- C. 'I want to hear it. If it is about someone being hurt or in danger, I must get help from others. I will tell you who and why, and I will not go behind your back.'
- D. 'I can't promise anything and I do not want to hear it.'

Answer: **C.** It is honest and kind and leaves the door open; promising secrecy and then breaking it harms trust. *Source: Academy Module 6, Script D.*

HCQ-M6-16 (Remember, MC)

Which crisis resources does the kit list for young people and adults?

- A. A school email alias
- B. 211 and 311 only
- C. 988 (call or text), Crisis Text Line (text HOME to 741741), and NCMEC CyberTipline (1-800-843-5678; report.cybertip.org)
- D. The police non-emergency line only

Answer: **C.** [VERIFIED 2026-10-05: 988lifeline.org, crisistextline.org, report.cybertip.org]. Call 911 for immediate danger. *Source: Fact-Check Report Round 1, items 1.1, 1.3, 1.4.*

HCQ-M6-17 (Apply, SCN)

A parent phones and says, 'My daughter told me she told you something. What did she say?' What is the best response?

- A. Say you cannot talk to parents at all
- B. Repeat what the daughter said
- C. Stay warm and share no details, connect them to the counselor, tell your administrator, and consider whether a family member could be involved before sharing anything
- D. Tell the parent to ask a friend

Answer: **C.** Follow policy and involve the counselor. *Source: Academy Module 6, Script E.*

HCQ-M6-18 (Understand, MC)

What is secondary traumatic stress, in plain language?

- A. Hearing about a child's hard experience can affect you even though you were not there; it is common and does not mean you did something wrong [VERIFY with a mental health source if cited]

- B. A form of blame
- C. A sign that you should not teach any topic
- D. A condition only counselors get

Answer: **A.** Care plan layers: right after, same day, that evening, that week, longer term. *Source: Academy Module 6, Part 6.*

HCQ-M6-19 (Analyze, MC)

Which statement is a phrase to avoid in a disclosure, and why?

- A. 'I believe you.' It is too short
- B. 'Your parents will be so upset.' It adds fear
- C. 'Thank you for telling me.' It is a form of praise
- D. 'What would help you feel safest?' It is leading

Answer: **B.** The avoid list also includes why questions, shock, 'I won't tell anyone,' 'I'm sure it's fine,' 'Let me see,' and 'Are you sure?' *Source: Academy Module 6, Part 4.*

HCQ-M6-20 (Apply, MC)

For a cyberbullying incident without sexual content or a threat, which steps does the Disclosure Guide list?

- A. Support the child targeted, help them save text evidence, document, report within bullying policy, avoid face-to-face mediation, support the child who was unkind, and check in at a day, a week and a month
- B. Put both children together immediately to settle it
- C. Post the incident in a staff chat
- D. Delete all messages

Answer: **A.** Do not mediate in a way that re-harms. *Source: Disclosure Guide Section 5.*

HCQ-M6-21 (Evaluate, SCN)

Which of these needs immediate escalation to an administrator and counselor?

- A. A game score argument
- B. A late assignment
- C. A mean nickname used once
- D. Threats of violence, self-harm statements, sexual content, doxxing, or a child saying they feel unsafe at school or home

Answer: **D.** These are the red flags listed in the bullying section. *Source: Disclosure Guide Section 5.*

HCQ-M6-22 (Evaluate, SCN)

You are not sure whether a student's comment is reportable. What does the kit advise?

- A. Wait a week to see if more details appear
- B. Ask the student's friends
- C. Question the student until sure
- D. Report if you are unsure, because the standard is suspicion not certainty; ask your administrator or the CPS hotline but do not delay while waiting

Answer: **D.** The threshold is reasonable suspicion, not proof. *Source: Academy Module 6, Scenario 6.C and Part 2.*

HCQ-M6-23 (Evaluate, SCN)

When should you not contact the family first?

- A. Never; always call the family first
- B. Only if the child is over 12
- C. Whenever a child is upset
- D. If a family member could be involved, the child asks you not to out of fear for their safety, or authorities advise otherwise

Answer: **D.** Follow district policy and CPS or law enforcement guidance. *Source: Disclosure Guide Step 6; Academy Module 6 Step 6.*

M7: Every Learner and Every Family

HCQ-M7-01 (Remember, MC)

Which are the five principles for every lesson in Module 7?

- A. Many ways in; no one is singled out; everyone has someone; assume good intentions in families; safety first, always
- B. One way in; call on volunteers; public sharing; family contact; lecture
- C. Speed; volume; testing; ranking; grading
- D. Fear; rules; secrecy; penalty; reward

Answer: **A.** Inclusion never lowers safeguards. *Source: Academy Module 7, Part 1.*

HCQ-M7-02 (Apply, SCN)

A child needs to disclose, and a classmate offers to translate. What do you do?

- A. Ask the child to write in English
- B. Do not use a classmate or sibling; offer a drawing or note in any language, a trusted bilingual adult or an interpreter service
- C. Accept the classmate as interpreter
- D. Delay the conversation

Answer: **B.** Children should not interpret for sensitive conversations. *Source: Academy Module 7, Part 2.*

HCQ-M7-03 (Understand, MC)

Why does the kit say a bilingual buddy should be a choice and rotate?

- A. So no child becomes the permanent translator or is put on the spot
- B. Because translation is illegal
- C. Because buddies are never helpful
- D. Because it gives extra points

Answer: **A.** Pairing is a support, not an obligation. *Source: Academy Module 7, Part 2.*

HCQ-M7-04 (Apply, SCN)

A newcomer to the class cannot read an English poster about 'hackles.' What helps?

- A. Ask the student to sit out

- B. Pictures, gestures and the four hand signals, pre-taught key words, and teaching 'I need help' in home languages, verified by a fluent speaker [VERIFY]
- C. Simplify by removing all safety content
- D. Assign a longer text

Answer: **B.** Hand signals do not depend on English. *Source: Academy Module 7, Part 2; Scenario 7.A.*

HCQ-M7-05 (Understand, MC)

What does Module 7 say about low-internet and no-device homes?

- A. Exclude those students from the lesson
- B. Assign online homework anyway
- C. Treat low-device homes as a problem to fix
- D. Do practice in class, never assign tasks needing a device at home, and remember low-device does not mean low-risk

Answer: **D.** The kit is unplugged by default. *Source: Academy Module 7, Part 5.*

HCQ-M7-06 (Remember, MC)

Which are the six trauma-informed practices in Module 7?

- A. Predictability, choice, safety, calm closings, warmth and respect, collaboration
- B. Fear, secrecy, humor, argument, debate, volume
- C. Testing, grading, sorting, ranking, shaming, timing
- D. Speed, surprise, rank, reward, penalty, silence

Answer: **A.** Reactions that look like misbehavior may be coping. *Source: Academy Module 7, Part 4b.*

HCQ-M7-07 (Apply, MC)

Which phrase helps in a trauma-informed classroom?

- A. 'Everyone else can do it.'
- B. 'Just get over it.'
- C. 'Stop being dramatic.'
- D. 'You have choices. Take the time you need. It is okay to pass.'

Answer: **D.** The harmful list includes 'You are fine' and 'Why do you always...'. *Source: Academy Module 7, Part 4b.*

HCQ-M7-08 (Understand, MC)

A student laughs and withdraws during a heavy topic. What does the kit suggest?

- A. Ignore all behavior
- B. It may be coping; respond with calm and curiosity, then check in privately
- C. Discipline immediately
- D. Call the family at once

Answer: **B.** Reactions that look like misbehavior may be a child coping with a heavy topic. *Source: Academy Module 7, Part 4b 'Remember'.*

HCQ-M7-09 (Remember, MC)

What does L.E.A.R.N. stand for?

- A. Look, Explain, Argue, Reply, Notify
- B. Leave, End, Avoid, Refuse, Never
- C. Listen, Empathize, Agree where you can, Respond with facts and options, Next step
- D. Learn, Educate, Assess, Review, Navigate

Answer: **C.** A five-step response to parent pushback. *Source: Academy Module 7, Part 7.*

HCQ-M7-10 (Apply, SCN)

A parent says, 'You are putting ideas in their heads.' Which reply fits?

- A. 'That is a thoughtful worry. The lessons avoid graphic detail and give children tools; they usually meet these things online already' [VERIFY any research cited]
- B. 'Our principal decided; I cannot discuss it.'
- C. 'You are wrong, and the statistics prove it.'
- D. 'Your child will be fine, so do not worry.'

Answer: **A.** Respond with facts and options, not an argument. *Source: Academy Module 7, Part 7 table.*

HCQ-M7-11 (Apply, SCN)

A parent asks, 'Why are you collecting data on my child?' What is the accurate answer for a class using Hackles?

- A. 'Hackles itself collects no student accounts or data. Any tally I keep is class-level and follows district policy.'
- B. 'We cannot tell you.'
- C. 'The company stores names for ten years.'
- D. 'We collect everything for research.'

Answer: **A.** Hackles collects no student accounts and no student data; teachers keep paper, local, short-lived tallies per district policy [VERIFY].

Source: *Academy Module 7, Part 7; Module 8 Part 1.*

HCQ-M7-12 (Analyze, SCN)

A family member could be involved in a child's disclosure. Which message to the family is appropriate?

- A. A message copying the child's words
- B. None until you have followed the Disclosure Guide and your policy; do not use a routine concern message
- C. A call to the family before reporting
- D. A warm routine message describing the concern

Answer: **B.** Sharing news of a concern applies to small, non-urgent matters only. Source: *Academy Module 7, Part 6.*

HCQ-M7-13 (Understand, MC)

What is the counselor's role in Parent Night?

- A. To grade parents
- B. To speak about what to do when a child tells you something hard and to help families pick a code word
- C. To avoid answering questions
- D. To take attendance

Answer: **B.** In the 30-minute script the counselor voice leads 'When your child tells you something hard.' Source: *Parent Night Presentation Script, Section 6.*

HCQ-M7-14 (Apply, MC)

A family wants to opt a child out of a higher-care lesson. What is the kit's approach?

- A. Thank them; families can opt a child out of specific lessons, and the counselor explains the process and the alternative activity
- B. Make the child do the lesson online
- C. Tell the child's peers
- D. Refuse and require attendance

Answer: **A.** Respect the family and keep the child included in a safe alternative. Source: *Academy Module 7, Part 7; Principal Checklist Section 7.*

HCQ-M7-15 (Evaluate, SCN)

An angry parent raises their voice during a meeting about the lessons. What should you do?

- A. Match their volume
- B. Stay calm, set a boundary ('I want to help, and I will continue this when we can talk calmly'), end the conversation, and tell your administrator
- C. Promise to cancel the lessons
- D. Argue the statistics

Answer: **B.** You do not need to absorb abuse. *Source: Academy Module 7, Part 7 'When it escalates'.*

HCQ-M7-16 (Understand, MC)

What does 'everyone has someone' mean in practice?

- A. Every child must name a parent
- B. Every child must have a phone
- C. Make sure every child can name a safe adult, and that school helpers count
- D. Every adult must be a counselor

Answer: **C.** Some children have no safe adult at home, so school helpers matter. *Source: Academy Module 7, Part 1.*

HCQ-M7-17 (Analyze, MC)

In the Inclusion Audit, which step in a lesson plan should be flagged?

- A. A step with a pass card
- B. A step that uses a hand signal
- C. A step with pictures
- D. A step that assumes a device, a quiet home, fluent English, fine-motor skills or a grown-up at home

Answer: **D.** Circle it and write one alternative. *Source: Academy Module 7, Try This Now and Activity 7.1.*

HCQ-M7-18 (Evaluate, SCN)

Which family message best matches the kit?

- A. 'This will protect your child from online harm.'
- B. 'We teach children skills, not fear. Your child will never be in trouble for telling. Lessons avoid graphic detail and collect no student accounts or data.'
- C. 'Your child is at serious risk.'
- D. 'The state requires this, so there is no choice.'

Answer: **B.** Three simple messages from Module 7. Avoid promises of prevention and avoid fear. *Source: Academy Module 7, Part 6.*

M8: Measure, Reflect, Grow

HCQ-M8-01 (Remember, MC)

What are Module 8's three questions to ask about teaching?

- A. Is it graded? Is it published? Is it paid?
- B. Did they learn? Would they act? Is it safe to tell?
- C. Was it fun? Was it long? Was it cheap?
- D. Who won? Who lost? Who left?

Answer: **B.** The third is the most important and hardest to measure. *Source: Academy Module 8, Part 1.*

HCQ-M8-02 (Remember, MC)

What is the Tell-Readiness indicator?

- A. The share of students who give the best answer on the two or three core 'would you tell' items
- B. The number of disclosures a teacher receives
- C. The grade on the final exam
- D. The number of students in class

Answer: **A.** It is the Assessment Pack's most meaningful number. Report it as a change in survey answers. *Source: Academy Module 8, Part 2; Assessment Pack Section 7.*

HCQ-M8-03 (Apply, MC)

Pre: 11 of 24 chose the best answer. Post: 17 of 22. What is the change in percentage points, rounded?

- A. About +31 points (46 percent to 77 percent)
- B. About +17 points
- C. About +55 points
- D. About +6 points

Answer: **A.** 11/24 is about 46 percent and 17/22 is about 77 percent. The kit's honest summary adds that class sizes differed slightly. *Source: Academy Module 8, Part 3 worked example.*

HCQ-M8-04 (Apply, MC)

Core items pre: 26 of 72; post: 51 of 72. What is the Tell-Readiness change?

- A. From 36 percent to 71 percent, +35 percentage points
- B. +71 points
- C. +51 points

- D. +25 points

Answer: **A.** 26/72 is about 36 percent and 51/72 is about 71 percent. *Source: Assessment Pack Section 14, Step 3.*

HCQ-M8-05 (Understand, MC)

Why may disclosures go up after lessons, according to the Assessment Pack?

- A. Because the lessons cause more harm
- B. Students feel safer to tell, which can be a sign the program is working; more or fewer disclosures does not map neatly to more or less harm
- C. Because the survey is faulty
- D. Because teachers invent them

Answer: **B.** Do not treat an increase in disclosures as a failure. *Source: Assessment Pack Section 13.*

HCQ-M8-06 (Analyze, MC)

Why does the kit say that with 24 students small changes may be noise?

- A. One child is about 4 percentage points, so small shifts can come from a few students or chance
- B. Surveys are never accurate
- C. Percentages cannot be computed for 24
- D. Statistics require 100 students

Answer: **A.** Treat results as signals, not proof. *Source: Academy Module 8, Part 3 reasonableness check.*

HCQ-M8-07 (Evaluate, SCN)

Which is the most honest claim for a report?

- A. 'Research proves this works.'
- B. 'More of my students said they would tell a trusted adult after the lessons (n = 24 matched pairs; no comparison group).'
- C. 'My lessons prevented abuse.'
- D. 'Our students are now safe from phishing.'

Answer: **B.** Report changes in survey answers, the number of students, and the lack of a comparison group. *Source: Academy Module 8, Honest claims; Assessment Pack Section 14 Step 8.*

HCQ-M8-08 (Understand, MC)

What can a pre/post survey without a comparison group not show?

- A. Cause, real-world behavior, honest answers under pressure, long-term effects

- B. How many students are in class
- C. Which items were skipped
- D. Whether the survey printed

Answer: **A.** Changes may reflect maturation, other lessons, news, repeated testing or chance. *Source: Assessment Pack Section 13.*

HCQ-M8-09 (Remember, MC)

How small a subgroup should you avoid reporting, per the kit?

- A. Fewer than 1,000
- B. Fewer than 100
- C. Any subgroup of any size
- D. Fewer than about ten students, subject to your district's suppression rule [VERIFY]

Answer: **D.** Small groups may identify individuals. *Source: Academy Module 8, Part 1; Assessment Pack Step 9.*

HCQ-M8-10 (Apply, MC)

Matched pairs: 15 up, 7 same, 2 down among 24. Which statement fits the kit's example?

- A. 'Everyone improved.'
- B. 'Two students are failing.'
- C. 'Most students (15 of 24) improved. A few (2) went down. We look at those who did not move and offer more practice.'
- D. 'The program caused improvement in 15 students.'

Answer: **C.** Report counts and offer additional practice. *Source: Assessment Pack Section 14, Step 4.*

HCQ-M8-11 (Remember, MC)

What are the four pieces of the Academy capstone?

- A. Exam; essay; poster; video
- B. Lesson Plan and Micro-Teach Evidence; Response Readiness Pack; Inclusion and Family Pack; Action Plan and Reflection
- C. Quiz; survey; ticket; tally
- D. Letter; chart; form; slide

Answer: **B.** Together they provide evidence for all six competencies. *Source: Academy Module 8, Part 7.*

HCQ-M8-12 (Remember, MC)

What does the Academy require for Hackles-Ready on the capstone rubric?

- A. Any three rows at 2
- B. Row A only
- C. At least five of six rows at 3 or above, no row at 1, and Row E (Respond) at 3 or above
- D. All rows at 4

Answer: **C.** Row E must be at least Hackles-Ready because response readiness is the most important competency for child safety. *Source: Academy_Assessments, Section 6.*

HCQ-M8-13 (Apply, SCN)

Scores on the post survey went down. What does Scenario 8.A suggest?

- A. Hide the results
- B. Blame the students
- C. Drop the program
- D. Look at the answers before panicking; students may be more honest after learning, or the post survey may be harder; ask students safely what would make telling easier

Answer: **D.** A drop can occur by chance and is worth examining only if it appears across several classes. *Source: Academy Module 8, Scenario 8.A; Assessment Pack Step 6.*

HCQ-M8-14 (Evaluate, SCN)

A principal says, 'Our measures say we are great, so we are done.' What is the best reply?

- A. Thank them, note the limits of surveys (no comparison group, self-report), and continue with glow-and-grow, delayed post surveys and observation
- B. Say all measures are useless
- C. Publish a claim of effectiveness
- D. Agree and stop measuring

Answer: **A.** Measures are signals for improvement. The Assessment Pack lists optional improvements such as a delayed post and a comparison group. *Source: Academy Module 8, Scenario 8.B; Assessment Pack Step 7.*

HCQ-M8-15 (Understand, MC)

What is the purpose of the teach-back?

- A. To record the presenter
- B. To check understanding and spread learning: you explain in your own words and the listener asks questions

- C. To test the listener for mistakes
- D. To grade the instructor

Answer: **B.** It works for children, colleagues and families. *Source: Academy Module 8, Part 5.*

HCQ-M8-16 (Evaluate, SCN)

A teacher plans to add a survey item asking students whether they have ever been bullied online. What does the kit say?

- A. It is fine if no names are used
- B. It is fine if anonymous
- C. Keep student surveys to knowledge, skills and confidence; items about a student's own experiences can fall under PPRA protected areas and need counsel, parental review and consent [COUNSEL TO CONFIRM]
- D. It is fine if the teacher gives it in class

Answer: **C.** The kit warns that a survey on protected areas given by a school official is treated as required and needs written parental consent; an opt-out is not enough [VERIFIED 2026-10-05; re-verify]. *Source: Assessment Pack, opening note and Section 6B.*
