The Hackles name, logos, characters and artwork are not covered by that license: print and share them unaltered for classroom and family use; any other use needs written permission. [VERIFY with counsel]

OCTOBER 2026

© 2026 Competence Collective. Lesson text and teaching materials CC BY-NC 4.0. The Hackles name, logos, characters and artwork are not covered by that license: print and share them unaltered for classroom and family use; any other use needs written permission. [VERIFY with counsel]

Status: DRAFT for local review, 2026-10-05. Not legal advice. Hackles has not been reviewed, approved or endorsed by FLDOE or any state agency. It has not been evaluated in a controlled study. Every legal or statistical statement is marked [VERIFY] or [COUNSEL TO CONFIRM]; ask your own counsel before relying on it.

How to read this document

THIS IS A VENDOR-RISK questionnaire completed by the publisher, answered truthfully for what Hackles actually is: a set of downloadable files plus a static website, with the Reader, Lab and Slides delivered as offline web pages that run in the viewer's browser. It has no server component that holds data, no accounts and no student data.

Format. The sections and question styles follow common K-12 and higher-ed review tools, namely the Higher Education Community Vendor Assessment Toolkit (HECVAT, including the Lite version, from EDUCAUSE) and student-privacy agreement templates such as those used through the Student Data Privacy Consortium. [VERIFY the current names, versions and owners of these instruments] The wording of each question below is our own short paraphrase. This is not the official spreadsheet. Your reviewer can copy any answer into the official form.

Answer key.

CODE	MEANING
YES	True of Hackles as built and checked, with the evidence named
NO	Not true, or not provided
N/A	The question assumes a hosted service, accounts or data that Hackles does not have
CANNOT ATTEST	We have no evidence to support a statement, or only the publisher's own say-so. A reviewer should not treat these as passes

What "checked" means here. Where we say a property was checked, the checks were scripts and tests run by the kit's maintainers (listed in the Accessibility Conformance Statement and Data-Flow Statement). They were not an independent audit. Re-run them on the exact copy you host.

Section A: Company and product

#	QUESTION	ANSWER	NOTES
A1	Company legal name and contact	YES	Competence Collective. Contact: [CONTACT: to be added]
A2	Legal entity type and state of formation	CANNOT ATTEST	Not stated in the kit files. Publisher to supply. [COUNSEL TO CONFIRM]
A3	Product description	YES	Free K-12 online-safety lessons, family and staff materials, assessment forms, static Reader, Lab and Slides
A4	Product is delivered as SaaS or hosted service	NO	Files and static folders you host yourself. The publisher's public website is static pages
A5	Does the product serve students directly	NO	Teachers, counselors, parents and administrators are the audience. Students use printed pages, projected slides and, optionally, the Lab in class or at home
A6	Cost	YES	\$0
A7	Third-party subcontractors with access to your data	N/A	The publisher has no access to your data
A8	Year product first released	CANNOT ATTEST	Draft stage as of 2026-10-05. Public release gates pending
A9	Customer references or case studies	NO	No classroom pilot completed as of 2026-10-05
A10	Independent certifications (SOC 2, ISO 27001)	NO	None. Not applicable to a static kit, and none claimed

Section B: Documentation and policies

#	QUESTION	ANSWER	NOTES
B1	Published privacy policy	CANNOT ATTEST	The kit states "no student accounts, no student data collected." A counsel-reviewed website privacy policy is pending. [COUNSEL TO CONFIRM]
B2	Published terms of use and disclaimer	CANNOT ATTEST	Counsel-drafted terms are pending. [COUNSEL TO CONFIRM]
B3	Written information security policy	NO	No formal policy document. The security posture is architectural: no data is held
B4	Written incident-response plan for a data breach	NO	No student data exists to breach. A correction and takedown procedure for content errors is planned
B5	Written change-management process	YES (limited)	Build scripts regenerate bundles and run site and Reader checks; versions and dates appear on files. No formal CAB or external audit
B6	Public errata and correction process	CANNOT ATTEST	Planned (48-hour fix target in the distribution strategy). Confirm it is live before relying on it
B7	Accessibility conformance report (VPAT or ACR)	NO	None from a third party. See the Accessibility Conformance Statement for the honest self-assessment
B8	Product roadmap and end-of-life notice policy	NO	Annual refresh planned; no commitment document

Section C: Application and service security

#	QUESTION	ANSWER	NOTES
C1	Application is accessed over HTTPS	N/A	You host it. Serve it over HTTPS on your own domain. The pages work from a local folder too
C2	Penetration test in the last 12 months	NO	None. No server-side application exists to test
C3	Vulnerability scanning of the application	NO	Static files have no application server to scan, and no scan was run
C4	Static code review	YES (limited)	The kit's scripts check the Reader and website for forbidden constructs (cookies, network calls, external URLs). No third-party review
C5	Input validation and injection protection	N/A	The pages accept no free-text input that is stored or sent anywhere. The Lab and Reader search handle input in the browser only
C6	Third-party libraries and their patching	YES	The Reader and Lab ship their own small scripts. No third-party JavaScript libraries, trackers or CDN files are loaded. Fonts are local files (see Licence Summary)
C7	Content Security Policy	YES (optional)	The website README gives a strict recommended header: default-src 'none' plus self for images and styles. The Reader and Lab need script-src 'self' and inline-script allowances to be tested on your server. [VERIFY on your host]
C8	Secure development lifecycle documented	NO	
C9	Software bill of materials	CANNOT ATTEST	The Reader and Lab folders contain their own scripts and the font files named in the Licence Summary. A formal SBOM was not produced
C10	AI or machine-learning features in the product	NO	No AI runs in the Reader, Lab, Slides or website. Note that the kit text was drafted with AI assistance (see Section K)

Section D: Authentication, authorization and accounts

#	QUESTION	ANSWER	NOTES
D1	User accounts exist	NO	None for anyone
D2	Single sign-on, SAML, OAuth	N/A	
D3	Multi-factor authentication	N/A	
D4	Role-based access	N/A	A "TEACHERS_ONLY" folder in the download bundles holds answer keys. It is a folder name, not an access control. Keep it off student-facing shares
D5	Password storage	N/A	
D6	Account provisioning and deprovisioning	N/A	

Section E: Data handling and privacy

#	QUESTION	ANSWER	NOTES
E1	Collects personally identifiable information (PII) from students	NO	
E2	Collects student education records as defined by FERPA	NO	Publisher never receives or stores them. Your own filing of surveys or letters is governed by your policies. [COUNSEL TO CONFIRM FERPA reading]
E3	Collects data from children under 13 (COPPA)	NO	The kit and pages collect no personal information. Counsel to confirm that kid-friendly printable art on the website does not make the site "directed to children." [COUNSEL TO CONFIRM]
E4	Collects data from teachers, parents or staff	NO	Not through the kit. The publisher's website may add an adult newsletter or feedback form later; if so it must be disclosed separately. [VERIFY current site]
E5	Data is sold or shared with third parties	N/A	No data exists to sell or share
E6	Data used for advertising, profiling or product improvement	NO	
E7	Data location and residency	N/A	
E8	Data retention and deletion	N/A	The publisher holds none. For your own survey paper and tallies, follow your retention schedule
E9	Encryption at rest and in transit	N/A	No data stored. HTTPS is your host's job
E10	Cookies	NO	None set by the kit files. The Reader stores one local setting (theme choice) in browser localStorage, which is not a cookie and is never sent anywhere
E11	Analytics, tracking pixels, fingerprinting	NO	None in the kit files
E12	Third-party scripts, fonts or embeds loaded from other servers	NO	The Reader, Lab and Slides load only their own files. The optional Google Fonts link mentioned in the website README is off by default and not recommended
E13	Behavioral surveys or screenings of students	YES (paper, optional)	The Assessment Pack contains optional paper pre/post surveys on knowledge, skills and confidence. They are administered and kept by the school, not collected by the publisher. Counsel should review them under federal and state student-survey rules before use. [COUNSEL TO CONFIRM; the kit's own checklist flags PPRA]
E14	Will the publisher sign a data privacy agreement	CANNOT ATTEST	Undecided. Because no data flows, the publisher may decline and offer the Data-Flow Statement instead. [COUNSEL TO CONFIRM]
E15	State student-privacy laws (examples: California SOPIPA, New York Education Law 2-d, Illinois SOPPA)	CANNOT ATTEST	Most attach to operators who receive student data. With none, exposure should be low, but only counsel can say. [VERIFY; COUNSEL TO CONFIRM]
E16	Breach notification obligations and timeline	N/A	No data to breach. If the publisher ever receives identifiable information by mistake, the plan is to delete it and direct the sender to the school's protocol. [COUNSEL TO CONFIRM duty]

Section F: Hosting, datacenter, continuity

#	QUESTION	ANSWER	NOTES
F1	Where is the product hosted	YES	On your server, LMS or drive if you copy it. The publisher's public site host is [OWNER TO CONFIRM]
F2	Datacenter security, SOC reports	N/A	
F3	Uptime commitment or SLA	NO	None. If you host a copy, uptime is yours, and copies keep working if the publisher's site disappears
F4	Disaster recovery and backup	YES (by design)	Every copy is a complete working copy. Keep your own backup of what you host
F5	Server logs	CANNOT ATTEST	Your host's logs apply to your copy. The publisher's host logging is unconfirmed. [OWNER TO CONFIRM]
F6	Network ports, firewall rules, allow-listing	YES	None needed. Standard web ports on your own server only

Section G: Quality assurance and testing

#	QUESTION	ANSWER	NOTES
G1	Automated tests exist	YES (limited)	Scripts in the kit check the website and Reader, and tests for each Lab tool are in kit/26_Lab/_tests. This pack's author re-ran the Reader and website checks on 2026-10-05 (both passed) and did not re-run the Lab or slide tests
G2	Browser and device test matrix	CANNOT ATTEST	No formal matrix. Lab checks used a Chromium-based browser through a scripted harness. Safari, Firefox and iPad behavior are untested. [VERIFY]
G3	Classroom pilot	NO	None completed
G4	Content accuracy review	YES (limited)	Fact-check rounds 1, 3A and 3B were done by AI-assisted desk review on primary sources and reported about one in four checked claims wrong or out of date before correction. Over a thousand [VERIFY] flags remain. Gate D accuracy pass is pending
G5	Human expert review of sensitive content	NO	Counselor, child-safety and attorney gates are pending

Section H: Accessibility

#	QUESTION	ANSWER	NOTES
H1	Product meets WCAG 2.1 AA or 2.2 AA	CANNOT ATTEST	We checked the Reader and Lab with scripts against parts of WCAG 2.2 AA and passed those checks. No claim of full conformance. See the Accessibility Conformance Statement
H2	Third-party audit or user testing with assistive technology	NO	None on record
H3	Accessible alternative formats	YES (limited)	Reader pages are plain HTML. Word files are editable. PDFs are untagged, so they are the weakest format for screen readers
H4	Accessibility contact and request process	CANNOT ATTEST	Contact address pending. [CONTACT: to be added]

Section I: Intellectual property and licensing

#	QUESTION	ANSWER	NOTES
I1	Publisher owns or has rights to all content	CANNOT ATTEST	The kit's checklist item 3.1 (written assignments from all authors and illustrators) is open. [COUNSEL TO CONFIRM]
I2	Open-source or third-party components	YES	Fonts under SIL OFL 1.1 and Apache 2.0. See the Licence Summary
I3	Artwork provenance	CANNOT ATTEST	Some artwork may be AI-assisted. Copyrightability and generator terms are open questions. [COUNSEL TO CONFIRM]
I4	Trademark clearance for "Hackles"	NO	Not cleared. A 2001 to 2004 webcomic used the name and the domain hackles.org belongs to it, not us. [COUNSEL TO CONFIRM]

Section J: Staff and organization

#	QUESTION	ANSWER	NOTES
J1	Background checks on staff with access to student data	N/A	No access to student data
J2	Volunteer program	CANNOT ATTEST	A Hackles Day volunteer program is described in the kit, but vetting, insurance and training partners are undecided. Do not accept volunteers under this pack without your own school process
J3	Cyber liability and errors-and-omissions insurance	CANNOT ATTEST	Planned, not confirmed. [VERIFY with broker]
J4	Crisis support provided by publisher	NO	The publisher gives no crisis support or case advice

Section K: AI use in producing the kit

#	QUESTION	ANSWER	NOTES
K1	Was generative AI used to draft content	YES	Text, checklists and many scripts were drafted and revised with AI assistance, then desk-reviewed
K2	Is any student data used to train or prompt AI	NO	No student data was ever involved
K3	Human accountability for content	CANNOT ATTEST	Named human reviewers have not yet signed off. Reviewer names may be published only with their written permission

What we cannot attest (summary)

1. Any independent security, privacy or accessibility audit. None exists.
2. Legal conclusions about FERPA, COPPA, PPRA, CIPA, state student-privacy laws or state instruction mandates. Counsel decides.
3. Ownership chain for all text and artwork, trademark clearance and insurance.
4. Human counselor, child-safety, attorney and classroom review. These gates are pending.
5. Browser coverage beyond what the scripts exercised, including Safari, Firefox, iPad and screen-reader pairings.
6. The privacy practices of the publisher's website host, and the existence of a live errata page or contact address.
7. That the kit is effective, approved by any state agency, or suitable for every community. It was written for a general US audience, with Florida covered most deeply.

*Completed from the kit files as of 2026-10-05 by the kit's maintainers (AI-assisted).
